Dear Sri UCSI Kuala Lumpur Community,

As we embark on the journey of Term 1 in this new academic year, we are thrilled to share some of the wonderful highlights and achievements from our school.

The Hari Raya celebration was a joyous occasion filled with vibrant dances, melodious singing, and Raya-themed sports, all organized by our dedicated teachers and talented students. It was truly heartwarming to see our community come together in the spirit of unity and festivity.

This term, we also hosted an exciting STEAM Fair where students showcased their creativity and problem-solving skills through challenges like model-building and engineering tasks. A standout feature of the event was the debut of our intriguing crime-solving game, which put our students' logical and deduction abilities to the test. Kudos to the brilliant young detectives who cracked the case!

Our younger learners had a memorable experience at the Dairy Day Fun Workshop, organized in collaboration with GogoKids and [Motherhood.com.my]. This workshop not only educated them about the nutritional benefits of dairy products but also encouraged healthy eating habits—an invaluable lesson for life.

Our students continued to excel in sports and competitions. Highlights from the MSSD events include:

- Cross Country: Siow Jin Chian and Isabelle Chin Yi Xuan secured positions in the Top 20.

- Chess Tournament: Harris achieved an impressive fifth place.

-Swimming: Goh Zhen Wei securing Top 6.

Congratulations to these exceptional students for their dedication and perseverance!

In the realm of eSports, the Mobile Legends Bang Bang competition brought thrilling moments, as Venice Won and her team emerged victorious, exemplifying teamwork and determination.

Finally, Term 1 Assessments offered all students an opportunity to reflect on their academic progress and strive towards excellence. We wish every student success in their endeavors as they continue to grow and shine.

Thank you for being a part of our vibrant community. Stay tuned for more exciting updates!

Group presentation using PowerPoint

In this English class, our secondary students got to work in groups to create and present on a chosen topic. Through this, they enhanced their collaboration, research and public speaking skills while integrating technology in learning.

Stable Sculpture (Arca Stabil)

In this art class, students learned a variety of valuable concepts and skills including balance and stability. They understand how weight distribution and a low center of gravity help keep a sculpture upright.
