Dear Sri UCSI Kuala Lumpur Community,

As we reach the end of Term 1, we take a moment to reflect on the many moments of growth, learning, and joy that have shaped this first part of the academic year. From exciting classroom experiences and interactive field trips to meaningful celebrations like Teachers' Day and the adrenaline-filled Cross Country event, Term 1 has been nothing short of vibrant and fulfilling.

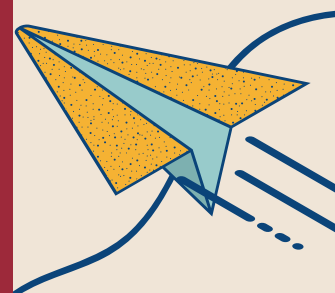

None of these would have been possible without the unwavering dedication of our teachers. Their commitment to nurturing not just academic excellence but also character development is at the heart of everything we do. We are deeply grateful to every teacher for their passion, creativity, and care. Your efforts do not go unnoticed, and your impact is truly lasting.

To our students, congratulations on completing a productive and eventful term. Whether in academics, sports, or event initiatives, you have shown resilience, curiosity, and a willingness to grow. Your achievements, big and small, deserve to be celebrated.

We also want to thank our parents and guardians for being such vital partners in your children's educational journey. Your support and involvement strengthen our school community and help create a nurturing environment where every child can thrive.

As we prepare to begin Term 2, let us carry forward the enthusiasm, collaboration, and positive spirit that have defined this term. We look ahead with confidence and excitement, ready to embrace new challenges and opportunities.

Wishing everyone a well-deserved break. Rest, recharge, and return with fresh energy for another great term ahead!

We are proud to announce that Haris Danial represented Zon Pudu in a highly competitive 3-day chess tournament, where top players from four zones across Kuala Lumpur faced off in a test of strategy and skill. Haris delivered an impressive performance, winning 5 out of 7 rounds and securing a place in the Top 16.

Congratulations to Haris Danial for this remarkable achievement !

As part of their hands-on learning experience, students independently designed and built their own gasing (traditional spinning top) and arca asemslaj (model assembly).

Throughout the class, students learned the importance of planning, precision, and patience. They also gained valuable experience in teamwork, time management, and applying theoretical knowledge in a practical context. Overall, the project fostered a deeper understanding of traditional craftsmanship and modern assembly techniques.

Tools- 3D printer & 3D pen

Students are required to create 3D designs using a 3D pen to enhance their critical thinking and creativity through practical projects.

Using Tinkercad, the teacher designed a 3D model of a plant cell for the science class to help students visualize it.
