Dear Sri UCSI Kuala Lumpur Community,

As we approach the midpoint of Term 1, I am delighted to present this edition of our school newsletter, highlighting the vibrant learning and activities that continue to shape our students' holistic development. Over the past several weeks, our students have shown tremendous energy and dedication—whether through the rigorous MSSD Cross Country training and participation, the enthusiasm displayed during our CCA Fair, or the meaningful togetherness of our Chinese New Year celebration. Our various Co-Curricular Activities, including badminton and many others, remain important platforms where students grow in discipline, teamwork, and confidence.

This edition also features a range of academic learning articles from our 21st Century Digital Skills (21CDS), Art, and Science departments. These pieces offer insight into the innovative teaching approaches and engaging classroom experiences that nurture creativity, critical thinking, and scientific curiosity among our learners.

As we enjoy the momentum of a productive term, I would also like to gently remind our students that Term 1 Assessment will begin next month.

Thank you for your continued partnership and commitment to our school community. We hope you enjoy this edition.

● Art Class: Beautiful Sunset ●

In this Year 4 lesson, students sketch a simple sunset scene and paint it using warm colours like orange, red, and yellow. With watercolours, they use the wet-on-wet technique to blend the sky smoothly. Finally, they add dark silhouettes of trees, hills, or buildings to complete the artwork, helping them explore nature's beauty while building painting skills.

- In our Form 3 Science class, student learning is enriched through the use of AI to support self-assessment. As students complete their revision, AI helps them reflect on their level of understanding and allowing them to identify misconceptions early. Students learn to evaluate their own thought processes, taking greater ownership of their learning.
