- Meet & Greet / Parent Engagement Session
- Malaysia Future Leaders School (MFLS) Committee Workshop
- Visitation by Bahagian Pendidikan Swasta, Ministry of Education

Dear Sri UCSI Kuala Lumpur Community,

Welcome to the first Sekolah Sri UCSI Kuala Lumpur's Newsletter! We are delighted to launch this newsletter and we believe this newsletter will serve as the perfect stage in which to help share our community's learning journey, examples of good learning and the wonderful life and times here. This next publication will be featuring some of our learning journey beginning of this year. As of now, the newsletter will be published on a monthly basis.

As we move forward, the focuses are turning to effective learning and teaching and teachers' continuous professional development as we endeavour to meet our students at their point of need, so they progress in all areas of the curriculum. Sri UCSI Kuala Lumpur strongly embraces the belief that learning occurs in many different settings beyond the walls of a traditional classroom. We introduce our students to a variety of exciting, stimulating and enriching experiences. We will further encourage the growth of a global perspective in our school by integrating concepts such as international mindedness, sustainable development, 21st-century skills to better equip our students for the demands of the ever-changing world. One of the aspects of Sekolah Sri UCSI Springhill that distinguishes us from other private schools in Malaysia is our emphasis of 5 very specific cross-curricular focus points. The 5 cross-curricular focus points (are referred as the 5C's of UCSI Schools 21st Century Learning) are Creativity, Collaboration, Critical Thinking, Communication and Character.

Starting this academic session of 2023/2024, these cross-curricular focus points span across the curriculum and are emphasised in every classroom and in every lessons in stages.

- First C, Creativity, refers to the ability of students to make use of their knowledge and/or talents to create something new, or to produce something in a new way.
- Second C, Collaboration points to the way students use various personalities, talents, and knowledge to work together and produce something new.
- The third C, critical thinking, refers to the ways that students filter, analyze, and question any information that they might find in various media, be it written, spoken, or broadcast, and then synthesize it to fit their understanding.
- The next C, which stands for communication, refers to the ability to put forward ideas and information in a clear, meaningful way. Communication has four main purposes, which are to "inform, instruct, motivate, and persuade" audience. The information presented should be clear, concise, correct, and coherent, so that readers/listeners will get the intended meaning.
- The last C, character, refers to their ability to empathize with others and apply that information to their behavior. Often referred to as emotional intelligence, this C is the foundation for creating positive, meaningful relationships. In addition to academic skills, students should also possess emotional intelligence, grit, perseverance, an intrinsic desire to learn, and the capacity to empathize with others. This is obviously a process that will need to happen over years and not just class periods.

We believe that developing these characteristics in the lives of students is the real essence of education.

Sekolah Sri UCSI Kuala Lumpur will be closed for the Hari Raya & Mid-Term 1 break from 20th – 28th April. We will observe a public holiday for Labour Day on 1st May. Therefore, all classes will resume on Tuesday, 2nd May 2023.

Thank you for choosing Sekolah Sri UCSI Kuala Lumpur Campus as the place to unlock the potential of your children and nurture them to become global citizens and future leaders. We value the trust you have placed in us. Wishing you and your family a prosperous and blessed celebration. May the joy of this festive season light your life with love, peace and hope. Selamat Hari Raya.

Thank you.

WONG KIN TUNG

Principal, Sekolah Sri UCSI Kuala Lumpur

THE SCOOP!

Dear Sri UCSI Kuala Lumpur Community,

It is an exciting time to be in Sekolah Sri UCSI Kuala Lumpur. We are pleased to announce our very first Newsletter – The Scoop. We are happy to share learning activities and events that took place in the school. There is a real buzz around the school as students reconnect with friends and teachers and make new acquaintances. CCA/ECAs have started, and students are having great time joining in the activities. On a side note, we have registered for many external competitions, and we are pleased to see parents encouraging the child to join the competitions. We are planning and looking forward for many events in the upcoming days. I hope that everyone under the wings of Sri UCSI Kuala Lumpur is more energised and determined to tackle this year with iron fists. We appreciate all the parents and students who took some time off their busy schedule to attend the school Orientation Day and Meet and Greet session. The school was filled with much excitement, and it was wonderful to meet many new families of Sekolah Sri UCSI Kuala Lumpur.

As we look forward to an exciting year ahead with a more student focus learning, we hope to see more students unleash their potentials from all limitations to develop, learn and apply them in their daily life with a positive mindset. Be kind to yourself, make time to pause and reflect on what brings joy to your life, and strive to find glimmers of that whenever possible. Know each of you are the source of joy for our community. We encourage you to continue to stay connected to academic, well-being and community support. On a final note, a reminder for everyone to put on the mask, always sanitise and maintain social distancing.

Finally, we would like to wish the entire community Selamat Hari Raya Aidilfitri. May you and your family be blessed with overflowing joy, peace and happiness.

Welcome to the new Academic Year!

It is wonderful to have all of us onboard here to witness our school's exciting progress. Just last week, we organized our very first Meet & Greet Session. It was a very meaningful event where we got to meet our parents' community. We have definitely exchanged a few insightful remarks to optimize our students' learning and school experiences. Soon, we will be sharing our Courses of Study to all parents so you can have a look at the course outline for the term. To further support your child's learning at home, we are also launching the Weekly Progress Reports. The reports will be updated every Friday evening for parents to have an idea on how your child has been learning. A teacher might provide some suggestions for improvement or highlight some aspects of learning that your child needs. This document also serves to keep parents updated on the learning progress of your child so that we can better prepare our children for any summative assessments. With that being said, our Term 1 Assessment is just around the corner – 8 May. During this time, all students will be assessed on their mastery on the learning objectives of the term. Please do spend some time with them to better manage their time so they can be better prepared for the assessment. More updates will come to you soon and we will keep you posted!

Last but not least, I would like to wish our Muslim community to have a Happy Hari Raya Aidilfitri!
