**WONG KIN TUNG**

Principal, Sekolah Sri UCSI  
Kuala Lumpur

Dear Sri UCSI Kuala Lumpur Community,

The importance of digital competencies among teachers has grown significantly in recent years due to the increasing integration of technology in education. Digital competencies refer to the skills, knowledge, and attitudes that enable teachers to effectively and efficiently use digital tools and resources in their teaching practice. In an increasingly digital and interconnected world, students need to develop digital competencies to thrive in their personal and professional lives. Teachers play a vital role in preparing students for the future by integrating digital tools, promoting digital citizenship, and nurturing the skills needed for success in the digital age.

We are pleased to announce that all of the staff (both academic and admin) of Sekolah Sri UCSI Kuala Lumpur have successfully completed the required training path and they are now certified as Microsoft Educators. This is the first step in the professional learning pathway under Microsoft Education, which focuses on the best practice and some basics for facilitating a blended or hybrid learning environment. The academic team now will be continuing their learning pathway to be Microsoft Advanced Educators. To transform education, it's critical that all teachers, leaders and staff have the ability and capacity to continually evolve their methods and adopt new technologies as lifelong learners.

At Sekolah Sri UCSI Kuala Lumpur, we invest in teachers' growth to help them be more effective is key to improving student learning. We believe that teacher quality has more impact on students than any school education program or policy does, and in fact, teacher effectiveness is the largest factor influencing student outcomes, outside of family background. Besides, being a Microsoft Showcase School, we are privileged that Microsoft has developed many resources for educators and other school staff, whether they're classroom teachers, school leaders, or in other roles.

Thank you.

Dear Sri UCSI Kuala Lumpur Community,

We hope this newsletter finds you and your families in good health and high spirits. At SSUKL the well-being of our students is a top priority. We believe that a positive and supportive learning environment fosters academic success and personal growth. Our teachers and staff have strived to create a nurturing and inclusive environment where students feel comfortable expressing their emotions and seeking help when needed. We have encouraged open communication and empathy to foster positive relationships. Besides, discipline plays a crucial role in shaping the character and future of our students. It instils self-control, responsibility, and respect for oneself and others. We have a well-defined behavioural policy that outlines expected behaviours and responsibilities for our students. This policy sets clear guidelines for appropriate behaviour, both inside and outside the classroom. In cases where disciplinary actions are necessary, we approach them as opportunities for growth and learning. Our disciplinary measures are designed to guide students towards understanding the consequences of their actions and making positive changes. We believe that by focusing on the well-being of our students and fostering discipline, we are preparing them to become responsible and compassionate individuals who will contribute positively to the society.

On a side note, we have started our CCA/ECA for Term 2 with a wide range of clubs and activities, allowing the students to pursue their interests and develop new skills. Furthermore, we are excited to announce the establishment of the SSUKL Student Council for the academic year of 2023/2024. The Student Council is a representative body that serves as the voice of the student community and works towards enhancing the overall school experience. The Student Council members were elected by their peers through a democratic process, and they have taken on the responsibility to advocate for the interests and needs of the student body. They are dedicated individuals who are passionate about making a positive impact on our school community. We look forward to a productive and successful term ahead. Together, we can make this academic year a memorable one for our students.

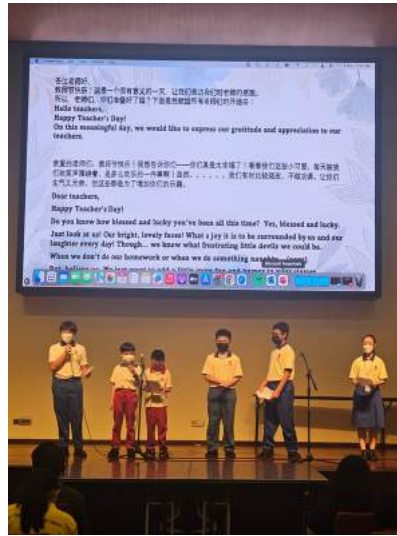

Thank you.

**Harshana Rajagopal**  
Senior Assistant of Student  
Affairs
