

SEKOLAH SRI UCSI
SPRINGHILL (SEREMBAN/PD)

**Dual Curriculum
with a Trilingual Edge**

Dual Curriculum, A Trilingual Edge.

Sekolah Sri UCSI Springhill offers a distinctive educational journey by integrating the Malaysian National Curriculum with the Cambridge Curriculum. This dual-framework approach equips students with a strong academic foundation that meets both national standards and international expectations.

As a certified Dual Language Programme (DLP) school, we deliver Science and Mathematics in English, while nurturing multilingual proficiency. At the primary level, students benefit from daily Mandarin classes, in addition to Bahasa Melayu and English, creating a rich trilingual environment that fosters early language mastery and cognitive development.

Located in the peaceful and fast-growing township of Springhill, our campus offers a calm, conducive setting for both academic and personal growth. With boarding facilities available, students enjoy a safe, supportive and immersive environment that promotes independence, responsibility and resilience.

As a proud Microsoft Showcase School, we champion a holistic and innovative approach to teaching and learning. Our programmes are designed to cultivate the 5Cs—Critical Thinking, Creativity, Communication, Collaboration and Character—the core competencies essential for success in the 21st-century.

To nurture these skills, we implement structured assessment rubrics that help students evaluate and reflect on their development in the 5Cs. These rubrics provide clear learning expectations and constructive feedback, encouraging continuous growth and preparing students to excel in future academic and career pathways.

We believe every child is unique, with strengths and potential that deserve to be nurtured. At Sekolah Sri UCSI Springhill, we are committed to delivering a student-centred, values-driven education that empowers learners to thrive—both locally and globally

Our Eight Critical Characteristics

1.
**CHARACTER
EDUCATION**

2.
**GLOBAL
CITIZENSHIP
SKILLS**

3.
**INNOVATION
AND CREATIVE
SKILLS**

4.
**TECHNOLOGY
SKILLS**

5.
**INTERPERSONAL
SKILLS**

6.
**PERSONALISED
AND SELF-PACED
LEARNING**

7.
**PROBLEM-BASED
COLLABORATIVE
LEARNING**

8.
**LIFELONG
LEARNING**

Our Vision and Mission

Our Vision

UCSI Schools aim to develop global citizens and inspire future leaders by providing a world-class, 21st-century education.

Our Mission

The mission of UCSI Schools is to provide a holistic education that prepares learners for the future by equipping them with the skills, knowledge, and values needed to become responsible global citizens in a 21st-century world.

Why Study at Sri UCSI Springhill?

Dual certification

The KSSR and KSSM curriculum is enhanced with the Cambridge International Curriculum, offering students the opportunity to sit for the Primary and Lower Secondary Checkpoint exams, as well as the IGCSE.

Microsoft Education

Our skilled and dedicated team of educators emphasises the use of IT as a tool for effective teaching and learning. Microsoft Education tools and resources such as Office 365, Teams, Hacking STEM and Minecraft Education are leveraged in our teaching and learning process.

Learning beyond boundaries

Our students engage in enriching learning adventures that extend beyond the classroom. Through a wide range of co-curricular activities (CCAs) and campus-wide initiatives, they gain diverse experiences that nurture personal growth, leadership and teamwork. These opportunities foster a holistic education, shaping well-rounded individuals ready to thrive in all aspects of life.

Dual Language Programme

Sri UCSI Springhill is one of the few private schools in Malaysia that offers the Dual-Language Programme (DLP). In this programme, Mathematics and Science are taught in English. This is aimed at helping students improve their English language proficiency.

Mastery of Three Languages

We empower students through a unique trilingual approach—Bahasa Melayu, English and Mandarin. Daily Mandarin classes are offered at the primary level to ensure strong language proficiency from an early age.

School facilities of international standards

Our campus is located on a 20-acre campus, which includes an Olympic-sized swimming pool and two-storey school library, an auditorium, a multi-purpose sports court, a state-of-the-art science laboratory and much more.

Experience swimming in our Olympic-sized pool

At Sekolah Sri UCSI Springhill, we believe swimming plays an essential role in a child's growth and development. Located on a 20-acre campus, swimming lessons are incorporated in the school's curriculum and co-curricular activities.

Meet Our School Principal

At Sekolah Sri UCSI Springhill, we believe that education is not just about academic success—it is about shaping well-rounded individuals who are prepared to thrive in a dynamic, interconnected world. Our school's mission is deeply rooted in developing not only the mind, but also the heart and character of every student. I am proud to lead a learning community that embraces this vision fully.

It is a privilege to lead a community so committed to excellence and holistic development. With over 35 years in education, I have had the honour of guiding schools through periods of significant transformation, always with the belief that students thrive best in supportive, inclusive and future-ready environments. At Sekolah Sri UCSI Springhill, that belief is reflected in everything we do—from our innovative teaching practices to the emphasis we place on values-based learning.

I am also grateful for the professional experiences that have shaped my journey—from being recognised with the Pingat Khidmat Masyarakat (PMC) and the Award for Excellence in Service, to the enriching opportunity to study at Lucy Cavendish College, University of Cambridge, and represent Malaysia at international education forums. These milestones have deepened my understanding of global best practices and strengthened my resolve to ensure every child receives an exceptional and empowering education.

Here, we champion the **5Cs—Character, Communication, Creativity, Critical Thinking and Collaboration**—as essential pillars in preparing our students to navigate both the opportunities and challenges of the 21st century. Our classrooms and co-curricular spaces are vibrant arenas of learning, where students are encouraged to question, create and contribute meaningfully.

As we continue this exciting journey together, I look forward to working hand in hand with our dedicated teachers, supportive parents and curious learners to build on the strong foundation we have established. Together, we will ensure our students not only excel, but also emerge as compassionate leaders and responsible global citizens.

Santhanasamy Amaladas

Principal, Sekolah Sri UCSI Springhill

PRIMARY SCHOOL (STANDARD 1 – 6)

(Ages 7 to 12)

Sri UCSI Springhill Primary School follows the Kurikulum Standard Sekolah Rendah (KSSR), the Malaysian National Curriculum for primary education. With Bahasa Melayu as the primary medium of instruction and a strong emphasis on English and Chinese language, we nurture trilingual proficiency from an early age—empowering students to communicate confidently in a globalised, multicultural world.

Our curriculum is further enriched within a vibrant and inclusive international environment, blending national standards with global best practices. We also integrate Information and Communication Technology (ICT) as a key enabler of teaching and learning, while encouraging active participation and inquiry-based learning among students.

At Sri UCSI Springhill, we are committed to providing a safe, nurturing and stimulating environment where every child can thrive. Our holistic approach fosters independence, curiosity and resilience, equipping students with the knowledge, language skills and global mindset needed for lifelong success.

Cambridge Primary curriculum

To further enrich our students' learning experience, Sri UCSI Springhill integrates selected components from UK's Cambridge curriculum. At the primary level, we offer the Cambridge English, Mathematics and Science subjects. In Standard 6, students undertake the Cambridge Primary Checkpoint examinations, administered by Cambridge Assessment International Education (CAIE).

These internationally recognised assessments are marked in Cambridge and provide an external benchmark that measures our students' academic performance against global standards. Upon completion, each student receives a Statement of Achievement from Cambridge, reflecting their success and readiness for the next stage of learning.

Daily Chinese Language

The primary years are a crucial period for language acquisition, laying the foundation for lifelong communication skills. At Sri UCSI Springhill, Chinese language classes are conducted daily across all primary levels to ensure students develop strong proficiency and mastery of Mandarin from an early age. As part of the programme, students will be progressively prepared to sit for the Hanyu Shuiping Kaoshi (HSK) proficiency exam at Standard 6, providing them with an internationally recognised certification of their language skills.

SECONDARY SCHOOL (FORM 1 – 5)

(Ages 13-17)

Sri UCSI Springhill Secondary School offers the Kurikulum Standard Sekolah Menengah (KSSM) from Form 1 to Form 5, leading to the Sijil Pelajaran Malaysia (SPM) examination in Form 5. With the increased integration of Higher Order Thinking Skills (HOTS) into the curriculum and assessments, the school's specialised system is designed to help students effectively engage with and excel in these higher-level cognitive skills, preparing them to meet the challenges of a competitive global environment.

The subjects offered at the Secondary level are:

- Bahasa Melayu
- English language
- Chinese language
- Science
- Biology
- Chemistry
- Physics
- Mathematics
- Additional Mathematics
- Basics in Computer Science
- Design and technology
- Accounting
- Economics
- Islamic education
- Moral education
- Art
- History
- Physical and health education

Curriculum

At Sri UCSI Springhill, the Cambridge Lower Secondary curriculum adds depth and global perspective to our national curriculum. From Form 1 to Form 3, students also study English, Mathematics and Science based on the Cambridge curriculum.

In Form 3, students sit for the Cambridge Lower Secondary Checkpoint assessments, which are externally marked by Cambridge Assessment International Education (CAIE). These assessments provide an international benchmark of academic performance and offer valuable insights into each student's strengths and areas for improvement. Upon completion, students receive an official Statement of Achievement from Cambridge.

International General Certificate of Secondary Education (IGCSE)

At the Upper Secondary level (Form 4–5), selected students are offered the opportunity to pursue the Cambridge IGCSE—an internationally recognised qualification. The Cambridge subjects offered include: Biology, Chemistry, Physics, Mathematics and English.

Students will sit for the IGCSE examinations, administered and assessed by Cambridge Assessment International Education (CAIE). These globally respected qualifications open doors to further education both locally and internationally, laying a strong foundation for future academic and career pathways.

We are a Microsoft Showcase School

Sri UCSI Springhill is proud to be Malaysia's first Microsoft Showcase Private National School. This prestigious recognition affirms our commitment to a multi-year journey of digital transformation—one that equips students with essential 21st-century skills and nurtures their potential to become future-ready global citizens.

As part of the global Microsoft Showcase School network, we embrace progressive educational practices focused on AI education, STEM integration and digital literacy—while ensuring our teachers undergo continuous professional development and obtain Microsoft certifications to stay at the forefront of educational technology.

AI Education And Emerging Technologies

Understanding the growing relevance of AI in today's world, we introduce students to AI fundamentals, machine learning concepts and ethical use of technology through age-appropriate platforms and project-based learning. Students develop essential skills in computational thinking, data literacy and digital ethics.

Our Microsoft Certified Educators are trained to guide students in exploring AI tools, ensuring that they not only consume technology but learn to create, innovate and lead with it.

BocoBot Robotics and Zoom Bot with MicroBit

Our robotics curriculum, delivered through BocoBot and Zoom Bot with Micro:bit, immerses students in the world of coding, engineering and automation. These platforms enable hands-on learning where students build, program and test robots. This sharpens their creativity, logical reasoning and STEM capabilities.

Microsoft Hacking STEM

Microsoft Hacking STEM connects classroom learning with real-world applications. Using ready-to-teach lesson plans, students solve hands-on challenges that build their critical thinking, problem-solving and collaboration skills—vital competencies in the 21st-century workforce.

Microsoft Office 365 for Education

Through Microsoft Office 365, students explore immersive tools like Word, Excel, PowerPoint and Teams to collaborate in real time and bring their ideas to life. With 3D modelling, data visualisation and intelligent writing aids, they enhance their creativity and communication skills across subjects.

Minecraft: Education Edition

Minecraft: Education Edition is a powerful open-world game-based learning tool that encourages creativity, collaboration and digital citizenship. Through structured, project-based lessons, students explore subjects such as science, history and coding while building key 21st-century skills.

At Sri UCSI Springhill, our mission is to inspire every student to be an innovative thinker, responsible digital citizen and lifelong learner. By combining certified educators, cutting-edge tools and AI-driven learning, we are not only preparing students for the future—we are empowering them to lead it.

The EdTech Centre at SSU Springhill

Inspiring innovation, empowering learners.

The EdTech Centre at SSU Springhill is a vibrant hub designed to equip students with essential 21st-century digital skills through immersive, hands-on learning experiences. More than just a physical space, it reflects our commitment to meaningful technology integration across the school.

Students have access to advanced facilities, including a Video Production Room and Audio Production Lab, allowing them to explore video editing, music creation, audio engineering and immersive digital environments through cross-curricular projects.

Our EdTech programme extends beyond the centre, with technology actively embedded into classroom teaching and student activities throughout the campus. Teachers leverage these tools to enrich lessons, foster creativity, and build real-world digital competencies.

To further enhance the learning experience, we host signature events such as the annual EdTech Developers Conference and Esports Tournament, along with monthly camps like the Digital Creative Camp and EdTech Makers Camp. These platforms provide students with opportunities to showcase their skills, explore emerging technologies and collaborate with peers and industry experts.

In line with UCSI Schools' AI Blueprint, we are preparing to launch our AI labs, reinforcing our role in nurturing future-ready learners through early exposure to artificial intelligence, machine learning and data literacy.

Highlights of the EdTech Centre:

- Video production, music recording, podcast making and XR labs
- School-wide tech access for coding, design and digital projects
- Robotics kits and esports facilities
- Signature events: EdTech Developers Conference, Esports Tournament
- Monthly EdTech Camps: Digital Creative Camp and EdTech Makers Camp
- More upcoming AI Labs to support AI and data literacy

Our Accreditations, Affiliations and Awarding Bodies

Our mission with Windows is to inspire creativity in everyone. As the leading educational platform worldwide, it is favoured by teachers for its creativity-enhancing applications like Autodesk SketchBook, Adobe Photoshop Elements, Minecraft and Office 365. Windows also supports various peripherals, offering innovative STEM lesson plans with Arduino boards, LEGO® Education WeDo® 2.0, accessibility tools, virtual reality headsets and interactive whiteboards.

Sekolah Sri UCSI Springhill is a certified Dual Language Programme (DLP) school and has been approved to teach Mathematics and Science in English at all entry points.

A Common Sense Certified School is recognised for its dedication to teaching young people how to be safe, responsible digital citizens by helping students think critically and use technology responsibly to learn, create and participate in the world around them.

Sekolah Menengah Sri UCSI Springhill is among the private national schools in the Central Region selected to participate in the Malaysian Future Leaders School (MFLS) programme. This initiative was designed by the Institute of Leadership Excellence and Development under the Ministry of Youth and Sports, with strategic partners such as the Ministry of Education (MOE) and Outward Bound School.

The Eco-Schools programme offers a special opportunity that empowers students to drive change in environmental awareness within their school and positively impact their wider community. The programme is designed to help students cultivate leadership skills and innovative thinking as they plan and implement various intervention activities aimed at creating an environmentally conscious community.

CAT4 is the United Kingdom's most widely used test of reasoning abilities for children aged 6 to 17+ years. It is an assessment of developed abilities in areas known to impact learning and achievement—namely verbal, non-verbal, quantitative and spatial reasoning—and offers an objective perspective on potential student success.

Sri UCSI Springhill is a part of the WE Schools Programme. Through it, the school empowers our students with the skills, knowledge and motivation to bring about positive change in themselves and the world. Through experiential service-learning programmes, students explore and take action on critical issues impacting their communities and beyond. Along the way, they develop essential social and emotional learning skills, such as resilience, empathy and problem-solving.

The Chinese Proficiency Test, known as Hanyu Shuiping Kaoshi (HSK), is an internationally standardised examination that assesses and rates Chinese language proficiency. It is China's only standardised test for non-native speakers. The test was initiated by the Beijing Language and Culture University and is now conducted annually in various cities both in China and abroad.

A Full Boarding Experience

Sekolah Sri UCSI Springhill is proud to be one of the few Malaysian National Schools offering a full-boarding experience that meets international standards. As a member of the Association of Boarding Schools Australia (ABSA), we uphold global best practices in boarding care and education. Through this affiliation, our boarding team benefits from global insights and rigorous frameworks that ensure a safe, enriching and developmentally appropriate environment for all students.

Our boarding programme is designed to support holistic personal development, academic enhancement, and individual attention under the care of dedicated house parents. Students benefit from structured routines, focused study sessions and weekend activities and excursions that contribute to their overall growth.

At Sekolah Sri UCSI, we believe boarding is an education in itself, one that fosters sharing, camaraderie, independence and teamwork. With exceptional facilities and an inviting campus setting, our boarding programme offers students the opportunity to live, learn and thrive in a supportive residential community.

ACCOMODATION

- Bed with linens and pillow
- Wardrobe
- Bedside table
- Common study area
- Access card
- Sofa

MEALS

- Breakfast
- Morning tea break
- Lunch
- Dinner

OTHER SERVICES PROVIDED

- Laundry
- Transportation
- On-campus WiFi

Our Co-curricular Activities (CCAs)

Co-curricular activities (CCAs) are an integral part of the school life of any student. One of the main benefits of CCAs is to help promote the growth of the students by teaching them essential social skills, moral values and leadership capabilities. Through participation in these activities, students can experience personal and social development, make new friends and learn the importance of resilience, determination, time management and teamwork.

Our wide selection of CCAs include:

Clubs and Societies

- *Speech and Drama*
- *Culinary Club*
- *Nature Club (Eco-School)*
- *Arts and Crafts*
- *Living Skills*
- *STEM Club*

Uniformed Bodies

- *Scouts*
- *Red Crescent Society (BSMM)*

Sports/Games Clubs

- *Dodgeball*
- *Basketball*
- *Board Games*
- *Volleyball*
- *Football*
- *E-sports*
- *Swimming*

School Schedule (Primary and Secondary)

School hours

Monday : 8am-3pm
 Tuesday-Thursday : 8am-4pm
 Friday : 8am-12pm

Registration / homeroom 7.50am-8am

Morning break 9.30am-10am

Lunch 12pm-12.30pm

Co-curricular activities (CCA)

Tuesday : 3pm-4pm (*Clubs and Societies*)
 Wednesday : 3pm-4pm (*Body Uniforms*)
 Friday : 8am-9.30am (*Sports*)

Note: The above activities are subject to change. Some activities which require an external coach may have additional fees involved.

Our Facilities

Our 20-acre campus is a safe and welcoming space, designed to enhance students' learning experiences both in and out of the classroom. These facilities allow us to provide a range of activities, from sports to science experiments and performing arts.

Laboratories

- Makerspace lab
- Coding and Robotic lab
- Information Technology lab
- Biology lab
- Physics lab
- Chemistry lab
- General Science lab

Studios and Activity Space

- Creative Art studio
- Home Science and Culinary arts studio
