## SEKOLAH SRI UCSI SPRINGHILL

### Build and Battle App Development & Minecraft Competition at Sekolah Sri UCSI Springhill Campus.

**ISSUE 68 - NOVEMBER 30**  
**+60 6-653 6888**

The Build and Battle App Development & Minecraft Competition at Sekolah Sri UCSI Springhill Campus challenges students creatively and technically through coding, app development, and Minecraft. It features two main categories: the Minecraft Build Competition and the App Development Challenge. Students work in teams to create impressive structures or develop apps that integrate with Minecraft, fostering innovation, teamwork, and problem-solving while promoting creativity and collaboration in technology and gaming.

The Minecraft Build Competition encourages students to create detailed structures and machines based on a specific theme within a time limit. Builds are judged on creativity, functionality, theme adherence, and visual appeal. The recent Build & Battle event was a success, with students enjoying gifts and competition. Congratulations to all winners and participants for their creativity! More events are on the way to showcase skills.

## MISS NADIAH ACCOUNTING, BUSINESS, AND GEOGRAPHY TEACHER

Hello Everyone!

As your teacher for Accounting, Business, and Geography, I'm thrilled to share how these subjects connect to your daily lives and prepare you for the future.

### **Accounting: The Art of Balance** **"Building Skills for Life"**

Accounting isn't just about numbers—it's about telling the story of a business. In class, we dive into concepts like budgeting and financial statements, which are skills you'll use whether you're managing a company or your own wallet! My goal is to make accounting less intimidating and show you how it can open doors to careers in business, entrepreneurship, and even tech.

## **Business: Turning Ideas into Reality**

"Think Big, Start Small"

Every business starts with an idea. Through activities like brainstorming products and running mock businesses, I aim to spark your creativity and teach you how to plan, innovate, and solve real-world problems. Business is not just a subject—it's a toolkit for achieving your dreams.

## **Geography: Exploring Our World**

"See the World, Shape the Future"

Geography helps us understand the Earth and our role in preserving it. This year, we'll uncover topics like forest resources and sustainable development, connecting what we learn to global challenges. Geography isn't just maps and rocks—it's about understanding how we can protect our planet and create a better future.

## **Dream Big, Work Hard, Stay Curious**

In all these subjects, my hope is to help you discover not just knowledge, but also inspiration for your future. Let's keep learning, exploring, and working together to turn ideas into impact. You never know—the next big entrepreneur, environmentalist, or accountant could be sitting in this very class!

## EYC'S GARDENING ADVENTURE – GROWING PAK CHOY!

This hands-on activity not only supports environmental awareness but also enhances the children's understanding of where food comes from. By engaging with the natural world in this way, they are learning essential life skills while developing a deeper appreciation for the environment. We are thrilled to report that the pak choy plants are thriving under the care of our young gardeners. Soon, the children will enjoy the rewarding experience of harvesting their crops and, perhaps, sharing their delicious produce with their families. Together, we are cultivating not only vegetables but also a brighter, greener future for our children.

EYC's Eco-Friendly Initiative promotes sustainability through gardening, with Early Years Centre students planting pak choy. Through this activity, they have experienced the joy of working together, taking care of their plants, and understanding the importance of sustainable living. It has been a delightful process watching the children nurture their seedlings with care and patience, eagerly awaiting the day they can harvest their very own pak choy.

## PENDIDIKAN ISLAM: NURTURING VALUES AND FAITH IN OUR YOUNG LEARNERS

At Sekolah Sri UCSI Bandar Springhill, the Pendidikan Islam subject plays a vital role in developing well-rounded students by nurturing their spiritual, moral, and intellectual growth. Key objectives include:

- **\*\*Spiritual Guidance\*\***: Teaching prayer, Quran recitation, and remembrance of Allah.
- **\*\*Moral Development\*\***: Fostering traits like honesty, respect, and responsibility.
- **\*\*Knowledge of Islamic History\*\***: Educating about Prophet Muhammad (PBUH) and significant Islamic events.

Engaging teaching methods involve storytelling, practical demonstrations, and creative projects. The curriculum promotes unity and inclusivity by emphasizing universal values for a diverse community.

Recent activities include:

- Quran Memorization Competition
- Islamic Arts Workshop
- Maulidur Rasul Celebration

Overall, Pendidikan Islam at Sekolah Sri UCSI provides a foundation for students to grow with strong faith and character, preparing them to become positive contributors to society.

### The Joy of Movement: Exploring Physical Education at Sekolah Sri UCSI Bandar Springhill

At Sekolah Sri UCSI Bandar Springhill, we believe that physical education is more than just a subject—it's a gateway to healthy habits, teamwork, and lifelong learning. Our Physical Education (PE) program for primary students is designed to inspire and nurture young minds and bodies, fostering a love for physical activity while promoting overall well-being.

From the first warm-up stretch to the final cooldown, each PE session is crafted to balance fun and fitness. Our curriculum introduces students to a variety of sports and physical activities, including football, volleyball, badminton, basketball, and athletics. These activities not only enhance motor skills but also build teamwork, discipline, and self-confidence. One of our keys focuses this year has been introducing modern approaches to physical education. This includes integrating age-appropriate fitness challenges, incorporating games that develop coordination and agility, and fostering an inclusive environment where every child feels encouraged to participate.

Through friendly competitions and collaborative exercises, our young learners are discovering the importance of respect, perseverance, and sportsmanship. It's heartwarming to see their enthusiasm on the field and the friendships that blossom during PE classes.

We are proud to contribute to our students' holistic development, ensuring they grow as active, healthy, and happy individuals. Together, we're building a foundation of fitness that will support them throughout their lives. Let's continue to cheer for our students as they leap, run, and play their way to success!

Stay active, stay healthy, and stay inspired!
