

THE EAGLES

RACKET WARRIORS: SERVE WITH PRECISION!

SEKOLAH SRI UCSI students showcased exceptional sportsmanship and skill at the MSSD Badminton Competition for both primary and secondary levels. Our young athletes exhibited tremendous talent and determination on the court, displaying agility and a true passion for badminton. The secondary students demonstrated exemplary sportsmanship and teamwork throughout the competition. Congratulations to all participants for their remarkable efforts and achievements in representing SEKOLAH SRI UCSI with such pride and excellence. Let's continue to aim high and pursue our sporting dreams with determination and spirit for volleyball and swimming teams!

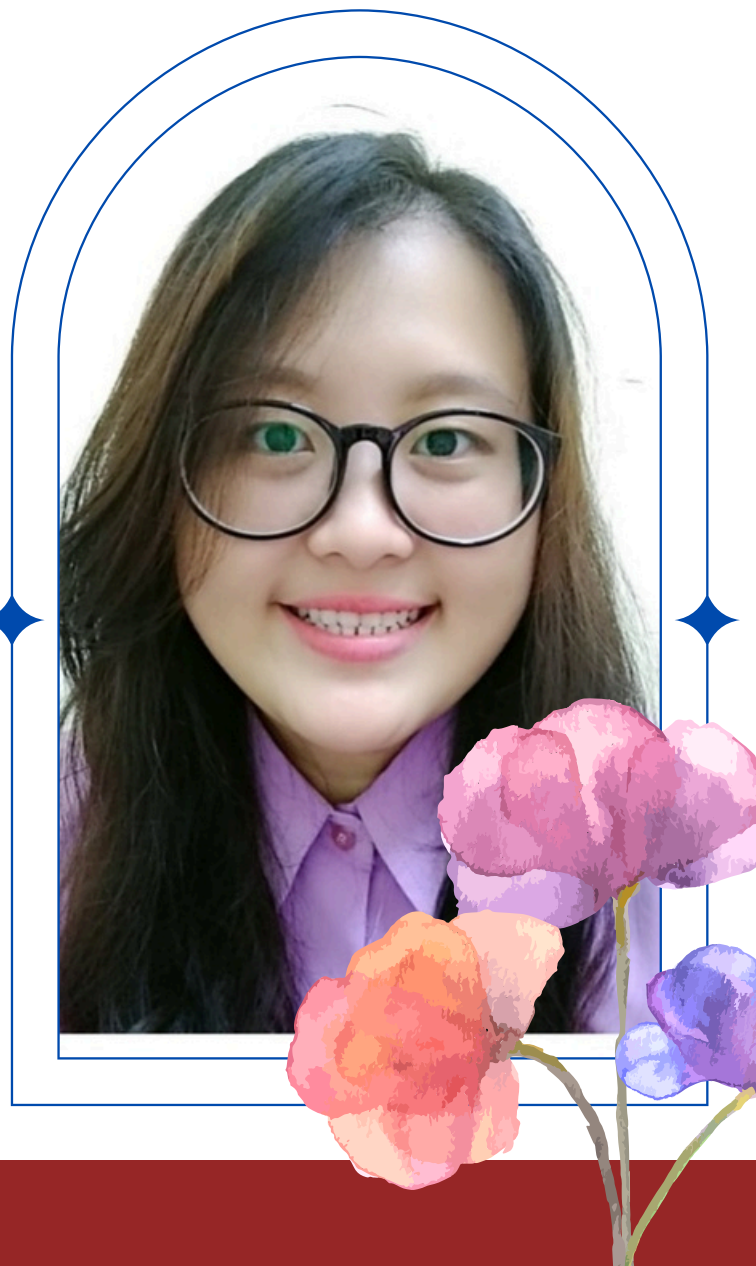

TEACHER SPOTLIGHT

The bi-weekly teacher's NEWSLETTER of The Eagles

MISS EUNICE TAN MANDARIN TEACHER

I'm Ms. Eunice, and I am thrilled to be a part of your child's educational journey! With a double degree in Education and a diploma in Early Child Care Education, I bring a wealth of knowledge and enthusiasm to the classroom.

I believe in creating a classroom environment that is welcoming and stimulating, where every child feels valued and encouraged to explore their potential. My teaching approach focuses on interactive learning, personalized attention, and creative projects. I strive to make learning an enjoyable adventure, using a variety of methods to cater to different learning styles and needs.

PAST EVENTS

PARENT-TEACHER CONFERENCE

Parent-teacher conference was held on the 5th of July 2024. Educators have the opportunity to share valuable insights into a student's progress, factors that can affect learning, such as students' behavioural and social development. Other topics include standardised test results, education plans, peer relationships, classroom behaviour, motivation and work habits, as well as students' strengths and challenges.

Parents gain a deeper understanding of their child's academic performance, social development, and overall well-being. By fostering relationships, understanding progress, setting goals, addressing concerns, promoting accountability, and fostering collaboration, these meetings contribute to the overall success and well-being of students.

MSSD TOURNAMENTS - PING PONG

Over two intense days, strategic battles unfolded in a few rounds, showcasing the exceptional skills and sportsmanship of our talented Sekolah Sri UCSI Springhill Campus participants.

A resounding applause is for our ping pong enthusiasts who demonstrated remarkable prowess on the court. Their fantastic achievements have earned them a well-deserved spot in our hearts.

Welcome to Tadika Sri UCSI Learning Zone

Science Explorers Monthly: Discovering the Wonders of the World!

Welcome to the edition of Science Explorers Monthly! We're excited to take you and your little ones on a fun-filled adventure into the amazing world of science. Each month, we'll explore fascinating topics, share simple experiments, and offer tips for making science a part of your everyday life. Here, we focus on a simple, exciting experiment that will spark curiosity and enthusiasm for science among kids at the Early Years Centre (EYC).

Here, we explore a lot of fun activities such as Volcano Eruption, magic balloon, witch potion and fizzy experiment. They apply hands-on-activity while analyzing conclusions and make hypothesis based on the experiment.

Suku Kata Permulaan Membaca

Membaca memainkan peranan penting dalam perkembangan dan kehidupan seseorang, terutama kanak-kanak. Pada peringkat mereka, mengenal huruf serta suku kata amat penting sebelum membaca. Kemahiran memecahkan perkataan kepada suku kata membantu meningkatkan keupayaan membaca dengan lebih cepat, kerana pembaca dapat mengenali struktur perkataan secara lebih terperinci. Bagi kanak-kanak, memahami suku kata membantu mereka menyesuaikan dengan struktur bahasa yang baru dan meningkatkan kefahaman serta kefasihan dalam bertutur dan menulis.

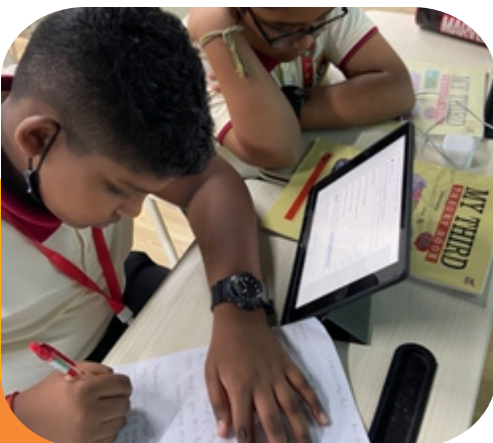

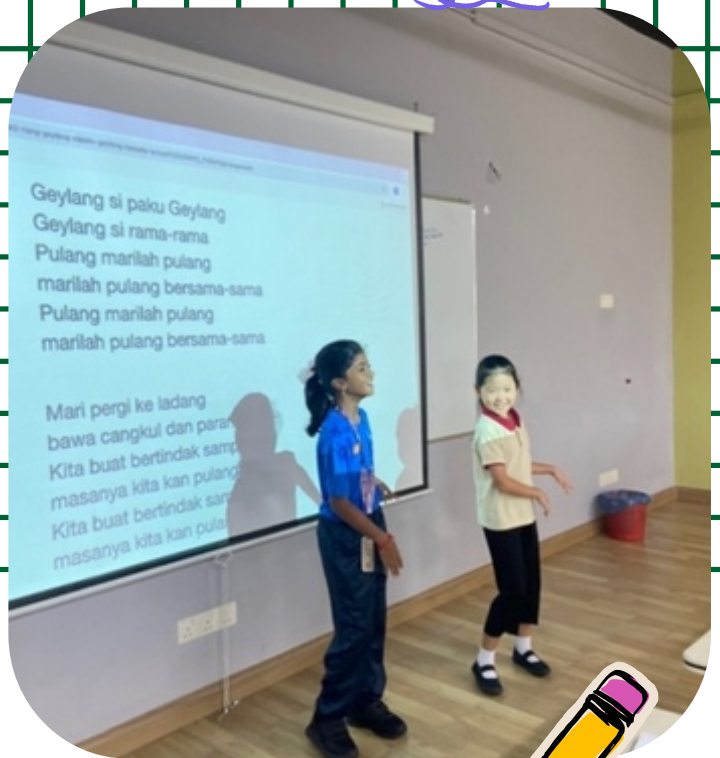

Oleh itu, memahami dan menguasai suku kata adalah asas penting dalam pembelajaran dan penggunaan bahasa yang efektif. Ini membantu kanak-kanak untuk berkomunikasi dengan lebih jelas dan tepat dalam pelbagai situasi.

PRIMARY LEARNING ZONE

MUSIC, UNLEASH THE MAGIC!

It will be enjoyable to teach music to primary school pupils at Sekolah Sri UCSI as we cover music theory topics like notation and symbols. In order to keep the students interested, teachers use a variety of interactive activities, including movement-based exercises like acting out songs or dancing, singing, and clapping rhythms. During music class, teachers allow pupils to show off their talents. Students truly take pleasure in studying music when they can perform musical talents like singing and dancing.

We believe that music and other courses are closely related. For example, students studying music will learn rhythmic patterns, language arts learners will write songs and poetry, and social studies students will study music from many cultures.

PRIMARY LEARNING ZONE

PENDIDIKAN MORAL

Murid kelas tahun 1 mengenali tentang berterima kasih kepada kawan-kawan. Murid berkerjasama antara satu sama lain untuk menghasilkan kad terima kasih kepada kawan mereka bagi menghargai semua sumbangan.

Murid menghasilkan kad berterima kasih mengikut kreativiti masing-masing. Murid mempersembahkan hasil kraf tangan di hadapan kelas.

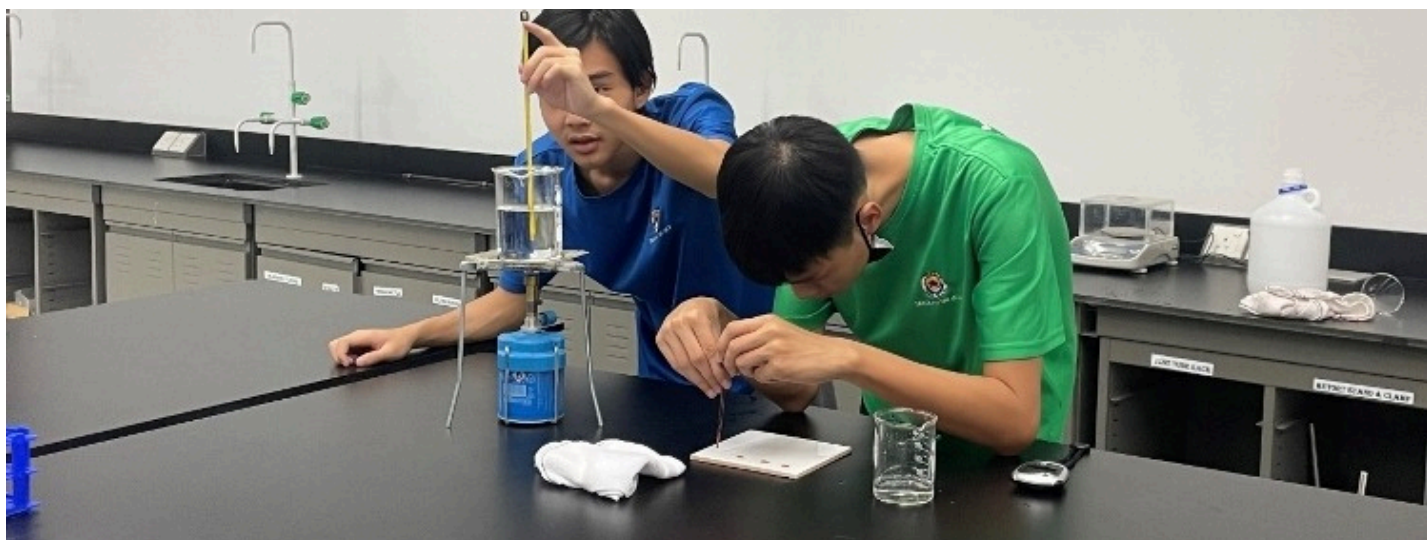

SECONDARY LEARNING ZONE

This term, our Form 4 Biology students embarked on an intriguing journey into the microscopic world of enzymes, focusing on a crucial experiment that examined the effect of temperature on the activity of the amylase enzyme. This experiment not only provided practical insights into enzymatic behaviour but also reinforced theoretical knowledge with hands-on experience.

The Form 4 Biology experiment on the effect of temperature on amylase activity was a resounding success, providing students with valuable insights into enzymatic function. Through careful observation and analysis, our students have deepened their understanding of biology, preparing them for more advanced studies in the future. Our budding biologists were enthusiastic about this experiment, as it bridged the gap between theoretical concepts and real-world applications.

Unlocking the Mysteries of Enzymes: Exploring the Effect of Temperature on Amylase Activity in Form 4 Biology

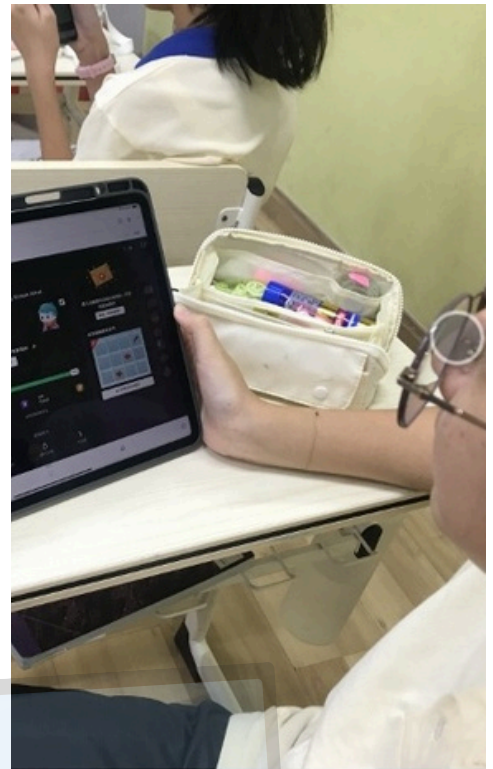

By incorporating practical experiments like these into the curriculum, we ensure that our students not only learn scientific theories but also develop critical thinking and analytical skills essential for their academic and professional futures. Stay tuned for more exciting updates from our science department!

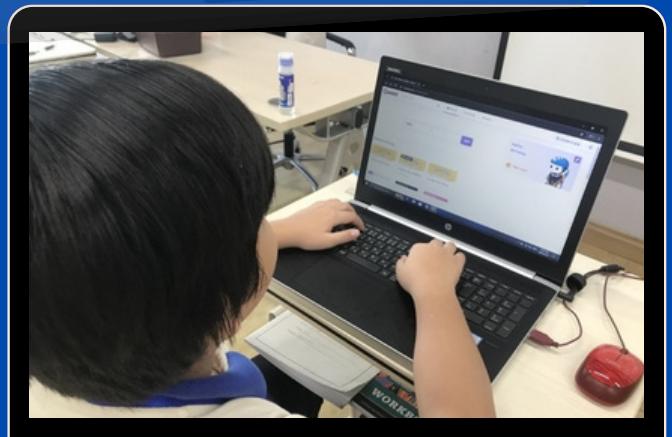

SECONDARY LEARNING ZONE

English - Learning is FUNtastic!

The primary purpose of a lesson is for the students to end up knowing more than they did when they started. In order to achieve this, teachers nowadays are well equipped with 21st century skills in teaching and learning to navigate students, finding their best learning style. Students are exposed to work either independently or in groups on a global scale. This means that teachers are no longer teaching just present continuous, but rather trying to get the most by providing engaging content and higher level thinking tasks.

One of the approaches that the students have experienced in the class is a pre-requisite lesson. This keeps students on their toes and makes their time worthwhile. This approach is combined with language learning apps such as Quizizz, Kahoot, Duolingo, and Babbel provide interactive lessons, games, and activities to improve vocabulary, grammar, and pronunciation. The objective of this approach is to get students to engage more in the class during feedback and reflection sessions. This is where students learn the most because mistakes and experience are the best teachers!

WHY SPRINGHILL SWIMMING ACADEMY?

- Experienced coach (with Life Saving Certification by LSSM and ARM)
- Regular pool maintenance
- Quiet and safe environment

LEARN TO SWIM WITH US

- It is an important life skill
- Build strength and stamina
- Release stress and tension
- Reduce joint/back pain

MEMBERSHIP

(casual swimming)

6 months for
RM600

12 months for
RM1,000

4 LESSONS / MONTH

(with coach)

5 to 12 years old
RM120

13 years old and above
RM140

- Affiliate member of Persatuan Akuatik Negeri Sembilan (PANS).
- Learn competitive swimming and become a school/state representative in national competitions.
