Tradition Meets Togetherness: HARI RAYA FESTIVITIES

The spirit of togetherness and cultural appreciation filled the air as our school celebrated Hari Raya Aidilfitri with great enthusiasm on April 18th. The event, held in the school hall, which was beautifully decorated with colorful lights, ketupat ornaments, and festive banners, brought parents, guardians, teachers, staff and students of all backgrounds together to honor this important Muslim festival. The celebration began with a short speeches by our director, Miss Shamaine and our principal, Mr. Santhana, highlighting the significance of Hari Raya Aidilfitri in promoting forgiveness, togetherness, and gratitude. This was followed by a traditional Malay dance performance by students, showcasing the rich cultural heritage of the celebration.

Teacher SPOTLIGHT

TEACHER GOWRY

ENGLISH TEACHER

Hi, I'm Ms. Gowri, and I consider it a great privilege to teach English at Sri UCSI. Teaching is an incredible profession—one that empowers us to shape students' lives, guide their futures, and inspire them toward success and achievement every single day. As a TESL graduate, I am grateful to channel my passion for the English language through creative, critical, and technology-enhanced instruction. I take pride in helping students, from Primary level onward, develop their ability to read, write, and speak effectively across the curriculum. I encourage them to think "outside the box" and apply what they've learned to innovate and envision their future.

My journey at Sri UCSI has been deeply rewarding. The students here are hardworking and resilient, a reflection of the high expectations set by their families.

Their drive for excellence and openness to constructive feedback make my role even more impactful. I truly believe that the classroom is an "incubator" for character, leadership, and lifelong learning. In addition to teaching English, I also serve as a prefect teacher, where I support student leaders in upholding discipline, fostering responsibility, and building a respectful school environment. This role allows me to mentor students in leadership and personal development, ensuring they grow not only academically but also as principled individuals. I continue to grow every day as an educator, and I remain committed to making a meaningful difference. Through consistent classroom management, engaging lessons and projects, and a strong foundation in values and communication, I strive to prepare students to thrive in an evolving digital world.

Past Events

Proud Moment: Ashwien Secures 3rd Place in U18 Squash MSSNS Tournament

We are thrilled to celebrate the sporting success of Ashwien, a student in Form 1, who recently achieved 3rd place in the Under-18 Squash Tournament held in Seremban on May 8th.

Competing against some of the top young squash players in the region, Shwien demonstrated exceptional skill, determination, and sportsmanship throughout the tournament. With several hard-fought matches and impressive rallies, their performance was a testament to months of dedication and training.

This achievement not only highlights Ashwien's individual talent but also reflects our school's strong commitment to encouraging excellence in both academics and extracurricular pursuits.

We extend our warmest congratulations to Ashwien and wish them continued success in future competitions!

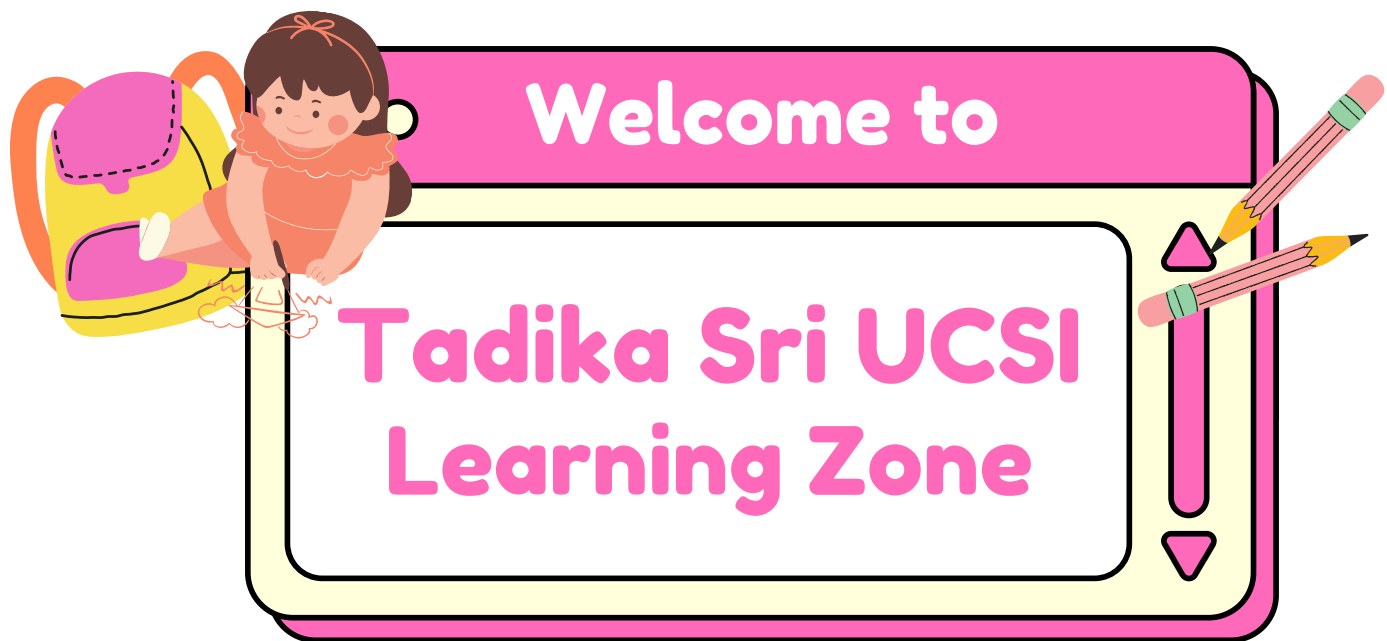

Kangaroo Maths

We are delighted to share that students from Primary and Secondary recently took part in the prestigious Kangaroo Maths Competition 2025, one of the world's largest mathematics contests aimed at promoting critical thinking and problem-solving skills among young learners.

Our students prepared with enthusiasm during maths club sessions practices, guided by our dedicated mathematics staff. Their performance reflects not only individual talent but also a strong culture of learning and curiosity.

We are extremely proud of all the participants and look forward to continuing our involvement in the Kangaroo Maths Competition in the years to come.

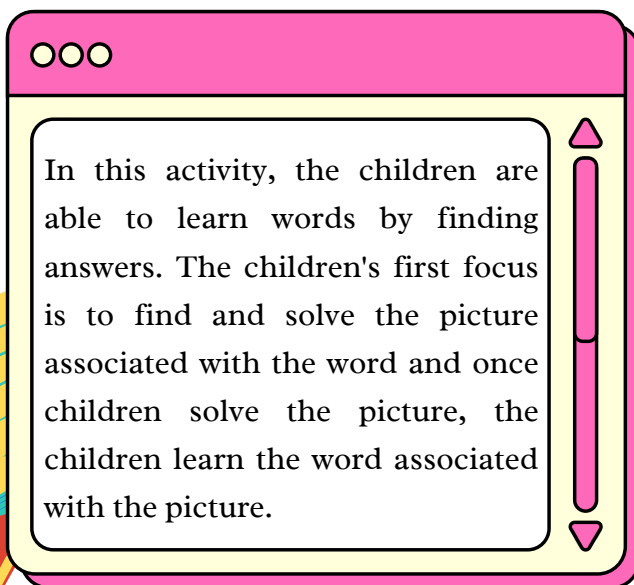

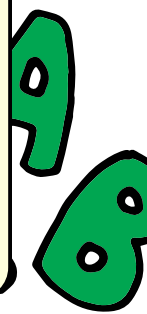

Small Voices, Big Words!

Teaching basic words helps to develop children's language and literacy skills. Basically, one should know literacy skills include listening, speaking, reading and writing. Literacy development is the process of learning words, sounds, and language. Children develop literacy skills in order to learn to read and write confidently and eventually improve their communication skills overall.

PRIMARY LEARNING ZONE

Enjoyment

Creativity

Skill Development

Little Scientists at Work

Our Standard 1 Science students explored two exciting topics through hands-on activities!

1. Seed Germination (Basic Needs of Living Things)

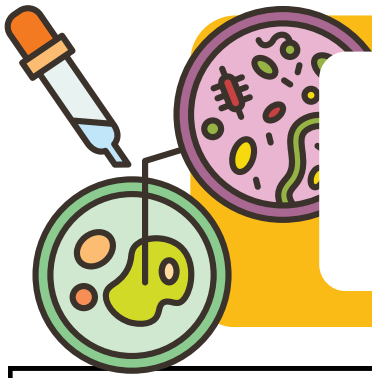

Students observed how a seed grows by setting up a simple germination experiment. They learned that seeds need water and air to germinate. Watching the roots and shoots appear was a magical moment for everyone!

2. Labelling Animal Body Parts

In another fun activity, students identified and labelled body parts of different animals. From beaks to tails and paws to wings, they gained a better understanding of how animals use their body parts to survive.

Learning Science is full of curiosity, discovery, and joyful!

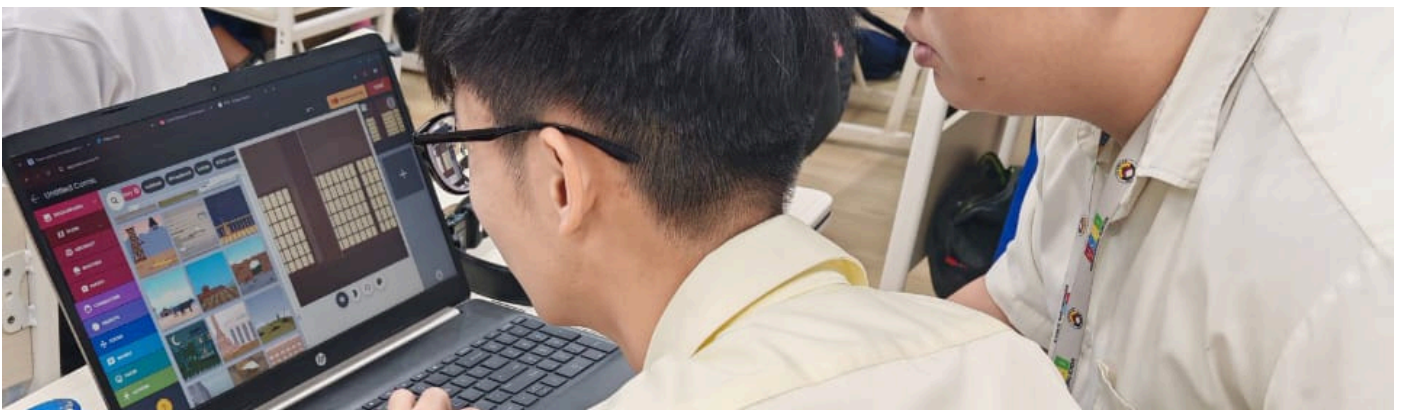

SECONDARY LEARNING ZONE

BRINGING HISTORY TO LIFE

In our recent Mandarin lessons, our Form 4 students embarked on a creative journey to explore and present famous historical Chinese stories. Working in small groups, students chose a well-known tale, researched its significance, and reimagined it through either a hand-drawn comic strip or a short film, complete with subtitles. This project aimed to help students not only deepen their understanding of Chinese culture but also strengthen their creativity, critical thinking, and collaboration skills.

Throughout the process, students took ownership of their learning by writing scripts, planning storyboards, and bringing their ideas to life through illustrations or video production.

Despite the short timeframe, they demonstrated remarkable teamwork and determination. Many groups took the initiative to seek feedback during informal check-ins and continued refining their work outside of class time. It was inspiring to see students problem-solve, communicate effectively, and express their interpretations of historical events in creative and accessible formats.

WHY SPRINGHILL SWIMMING ACADEMY?

- Experienced coach (with Life Saving Certification by LSSM and ARM)
- Regular pool maintenance
- Quiet and safe environment

LEARN TO SWIM WITH US

- It is an important life skill
- Build strength and stamina
- Release stress and tension
- Reduce joint/back pain

MEMBERSHIP

(casual swimming)

6 months for
RM600

12 months for
RM1,000

4 LESSONS / MONTH

(with coach)

5 to 12 years old
RM120

13 years old and above
RM140

- Affiliate member of Persatuan Akuatik Negeri Sembilan (PANS).
- Learn competitive swimming and become a school/state representative in national competitions.
