

# THE EAGLES

## From Classroom to STAGE

Early Childhood Centre students at Sekolah Sri UCSI Springhill Campus dazzled their families and teachers with a heartwarming talent performance that highlighted the boundless creativity and enthusiasm of young children. Held on the 2nd of August at the school hall, this event was a testament to the joy and potential that each child brings to the stage. The performance featured a delightful variety of acts, each showcasing the unique talents and interests of the kindergarteners. From lively dance routines and charming vocal performances to impressive displays of musical skills and adorable skits, the event was a celebration of youthful exuberance and creativity. Parents and teachers filled the hall, their cheers and applause creating an encouraging atmosphere that further motivated the young performers.

## MISS RUBASHINI

MATHEMATICS & SCIENCE TEACHER

I am thrilled to introduce myself as a new mathematics and science teacher as well as a homeroom teacher for this academic year. I am excited to join the Sekolah Sri UCSI community and to embark on this educational journey here.

With a background in Bachelor of Chemical Engineering and Masters in Chemical Engineering, I am passionate about making learning an engaging and enriching experience. My approach to teaching involves not only covering the curriculum but also fostering critical thinking, curiosity, and a love for learning in my students.

Science is an exciting subject because it allows us to understand how the world works, from the smallest atoms to the vastness of space. This year, we will dive into various fascinating topics, conduct experiments, and develop critical thinking skills that will help you not only in science but in everyday life. As a homeroom teacher, I am committed to creating a supportive and inclusive classroom environment where every student feels valued and encouraged to reach their full potential.

My goal is to create a supportive and engaging classroom environment where everyone feels comfortable asking questions and exploring new concepts.

I believe that mathematics is not just about numbers but about thinking critically and solving problems creatively. I am committed to helping each student develop these skills and to showing how math is relevant to everyday life.

I am looking forward to getting to know each of my students, understanding their unique strengths, and working together to achieve academic success and personal growth.

# PAST EVENTS

## MSSNS SQUASH TOURNAMENT

Sri UCSI School's squash player, Ashwien showcased an outstanding performance at the MSSNS Championship held on August 6, 2024. Our player defeated rigorous opponents in highly competitive sets, securing 3rd place and qualified for MSSM. His effort and determination are truly inspiring. The entire school community congratulates Ashwien and coaches for their outstanding achievements and dedication.

## MSSNS PING PONG TOURNAMENT

The Sekolah Sri UCSI Springhill Table Tennis team delivered an outstanding performance at the recent MSSNS tournament held in Seremban. Competing against teams from various schools, our players demonstrated exceptional skill and sportsmanship, securing 3rd place. The school community extends its congratulations to all the players and coaches for their impressive results.

# Welcome to Tadika Sri UCSI Learning Zone

## Mastering Drag and Drop Fun!

In Tadika SRI UCSI's STEAM class, we introduced the children to the exciting world of computers with a focus on the drag-and-drop function using the right-click. Our session began with a fun and interactive activity where the young learners arranged alphabet letters in the correct sequence. This task was designed to not only enhance their familiarity with the alphabet but also to build their confidence in using a computer mouse, specifically practicing the right-click and drag-and-drop methods. These exercises laid a strong foundation for their future learning in STEAM subjects, blending technology with creativity and critical thinking. The session was a testament to the power of interactive learning, setting the stage for continued exploration and mastery of computer skills.

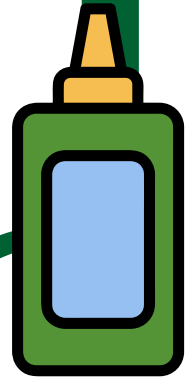

## Indoorplay

In today's technology-driven world, where children are often immersed in screens and passive activities, the importance of indoor play cannot be emphasized enough. Indoor play areas offer a safe and stimulating environment where children can engage in a variety of physical activities and games. Indoor play areas provide an environment that encourages children to engage in conversation and develop their language and communication skills. Interacting with peers, pretend play, and group activities promote vocabulary development, sentence formation, and effective communication. Children learn to express themselves, listen to others, and develop their verbal and non-verbal communication skills, which are important for their social and academic development.

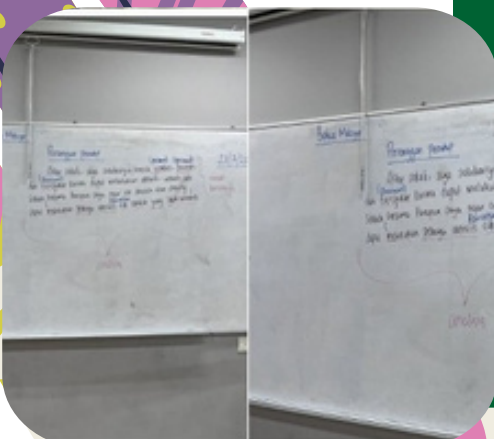

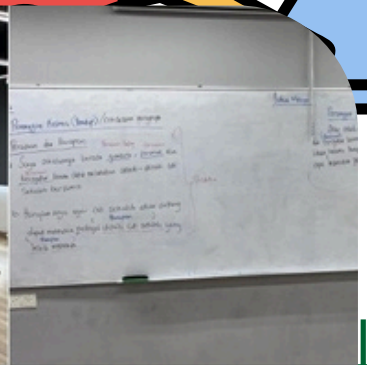

## PRIMARY LEARNING ZONE

### ENRICHING STUDENTS' MALAY LANGUAGE

Learning a new language is always an enriching experience, and mastering full essay writing can make the journey even more exciting. For students, learning full essay writing at UCSI School Springhill offers a variety of exciting opportunities and benefits that go beyond academic achievement. In addition, learning Malay essay writing at UCSI School Springhill fosters cognitive development and writing skills. Reading skills are the backbone of any language, and by learning them systematically, students develop a stronger understanding of the structure of the language.

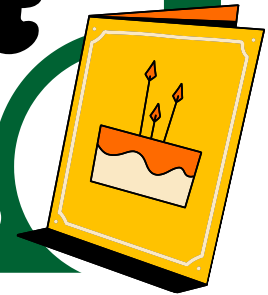

Year three students at Sri UCSI school were exposed to the learning of essay writing by looking at the basics of essay writing. In essay writing, they have been exposed to how to make a sentence structure, full writing, and essay writing analysis. This purpose is done so that students are fully exposed to writing.

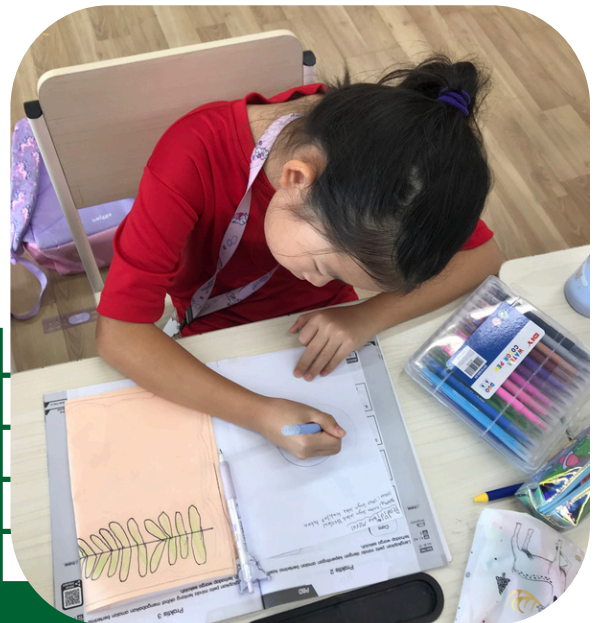

## PRIMARY LEARNING ZONE

### PENDIDIKAN MORAL: MENGHARGAI SAHABAT

Pendidikan Moral mengajar manusia untuk lebih peka akan keadaan sekeliling mereka. Subjek ini mendedahkan para pelajar terhadap nilai-nilai murni yang perlu diamalkan dalam kehidupan seharian. Kepentingan mengamalkan sikap yang positif, cara untuk menghargai warga sekolah dan yang paling penting adalah saling hormat-menghormati.

Antara pendekatan yang dipraktikkan di dalam kelas adalah pembelajaran secara amali. Para pelajar mendapat pendedahan yang optimum dengan cara ini. Pembelajaran kali ini mengajar mereka tentang cara yang sesuai untuk menunjukkan penghargaan kepada rakan-rakan dengan memberikan kad ucapan. Setiap pelajar membuat sendiri kad tersebut dan menulis ucapan yang indah kepada rakan mereka.

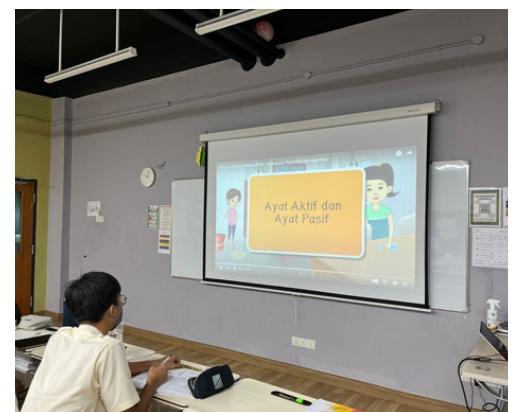

# SECONDARY LEARNING ZONE

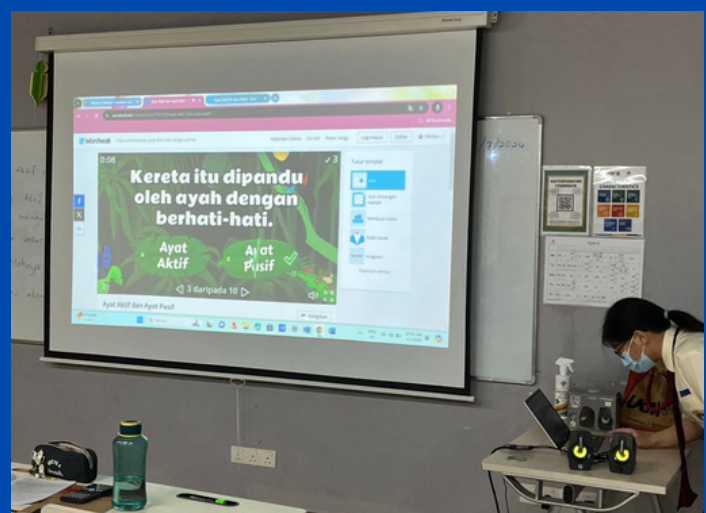

Learning a new language is always an enriching experience, and mastering its grammar, or tatabahasa, can make the journey even more fascinating. For students, learning Bahasa Melayu Tatabahasa (Grammar) in SRI UCSI School Springhill offers an array of exciting opportunities and benefits that go beyond mere academic achievement. This essay explores why diving into Malay grammar in an educational setting can be both thrilling and rewarding. Learning Malay grammar can be incredibly exciting because it opens doors to new modes of expression. Students who master the grammatical rules of Malay can explore creative writing, engage in meaningful conversations, and participate in cultural exchanges with greater confidence. This newfound ability to express themselves in Malay can be empowering, especially in a multicultural society where bilingualism is highly valued.

Furthermore, the process of learning grammar in a structured classroom environment often involves interactive and engaging methods. Teachers use a variety of tools, such as games, group activities, and multimedia resources, to make grammar lessons enjoyable. These methods not only make learning more fun but also help students retain grammatical concepts more effectively. For instance, role-playing exercises can help students practice using different verb forms in context, making the learning process both dynamic and memorable.

## Learning Tatabahasa Bahasa Melayu (Malay Language Grammar) with Form 4

**Learning Bahasa Melayu Tatabahasa (Grammar) at school is a truly exciting experience. It offers students a deeper connection to the language's cultural and historical context, enhances their cognitive and linguistic skills, opens up new avenues for self-expression, and provides a fun and rewarding learning experience. As students immerse themselves in the grammar of Malay, they not only gain valuable knowledge but also develop a lasting enthusiasm for the language.**
