SEKOLAH SRI UCSI SPRINGHILL

GLOBAL ISLAMIC BOARDING SCHOOL IMMERSION PROGRAMME

ISSUE 67 - NOVEMBER 15
+60 6-653 6888

Sekolah Sri UCSI Springhill Campus is thrilled to announce the launch of its new Language Immersion Programme, aimed at enhancing students' language skills through an engaging, hands-on approach. Beginning this year, students in all grades will experience a curriculum designed to immerse them in all subjects while integrating cultural elements. Classes will focus on interactive activities, including storytelling, cooking, STEM and art projects.

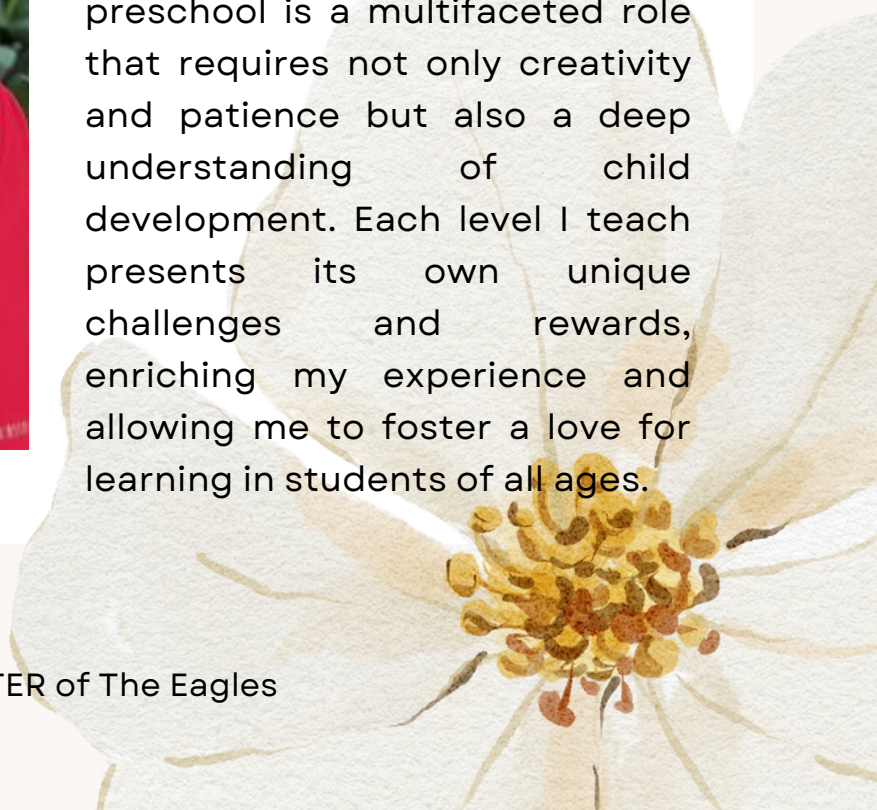

This immersive approach helps students develop confidence and fluency. The programme will also feature cultural workshops and events throughout the year, enriching students' understanding of the language and its heritage.

MISS SHAMALA EYC & ACCOUNTING TEACHER

As an educator, I thrive in the dynamic environment of teaching across three different levels: preschool, primary, and secondary students. Contrary to popular belief, teaching preschool is a multifaceted role that requires not only creativity and patience but also a deep understanding of child development. Each level I teach presents its own unique challenges and rewards, enriching my experience and allowing me to foster a love for learning in students of all ages.

TEACHING PHILOSOPHY

My journey as a teacher is not just a profession; it is a fulfilling path that enables me to shape young minds and inspire lifelong learners. In my opinion, preschool is the most demanding yet profoundly rewarding level to teach. Many students enter my classroom without any prior knowledge of letters or numbers, and as their preschool teacher, I hold the key to unlocking their literacy and math skills. This foundational stage is crucial, as it sets the tone for their future learning experiences.

I create a nurturing and engaging environment where curiosity is encouraged, and mistakes are viewed as opportunities for growth. With the addition of teaching accounting to secondary students, I embrace new challenges that I find equally exciting. This opportunity allows me to leverage my degree in business administration, with a specialization in finance, to enhance students' understanding of key accounting principles. Balancing these three educational levels keeps me motivated and passionate about teaching, and I am eager to continue growing in my profession.

I believe that the qualities of patience, creativity, and a commitment to fostering a supportive learning environment are essential for all educators, especially those working with young children. By cultivating these attributes in myself, I aim to inspire my students to reach their full potential and develop a lifelong love of learning.

Past Events

World Soil Day

In celebration of World Soil Day on November 11th, Sekolah Sri UCSI Springhill Campus organized a creative and educational painting activity for students, aimed at raising awareness about the importance of soil conservation and sustainable farming practices. The event was designed to encourage students to think critically about the vital role soil plays in our environment and food security. With this initiative, the school hopes to inspire students to take an active role in promoting environmental sustainability and encourage them to spread the message of soil conservation in their communities.

World Mental Health Day

On October 10th, Sekolah Sri UCSI Springhill Campus celebrated World Mental Health Day with a special yoga session aimed at promoting mental well-being among students. Held in the school's hall, the event brought together students, teachers, and staff to participate in a calming and restorative yoga routine designed to reduce stress and increase mindfulness.

The yoga session, led by local instructor focused on simple breathing exercises and gentle stretches that are known to improve both mental and physical health. Through this initiative, the school hopes to create a supportive atmosphere where students can openly discuss mental health and learn healthy ways to cope with life's challenges.

IGNITING IMAGINATION: ART AND CRAFT ADVENTURES
FOR 4-6 YEAR OLDS

These sessions aren't just about making something pretty; they're vital exercises in self-expression, patience, and problem-solving. As children work with various materials, from glitter and glue to nature-inspired treasures, they develop fine motor skills, learn about composition, and build the confidence to share their creations. Art and craft are also incredible social experiences. Working side by side with friends on group projects fosters teamwork, collaboration, and communication, while solo creations allow for individuality and personal reflection.

At the heart of early childhood lies the spark of creativity—a powerful force that transforms simple colors, shapes, and textures into magnificent expressions of young minds! Our art and craft activities for 4-6-year-olds are designed to unlock this potential, allowing children to explore their imagination while developing key skills. Through hands-on activities like painting, clay molding, collage-making, and more, children dive into a world where they're free to create and explore without limits.

THROWBACK TO SCIENCE HIGHLIGHTS!

Standard 1: Remember when our budding scientists explored water absorption? They discovered which materials were super-soakers and even got their hands dirty studying soil content!

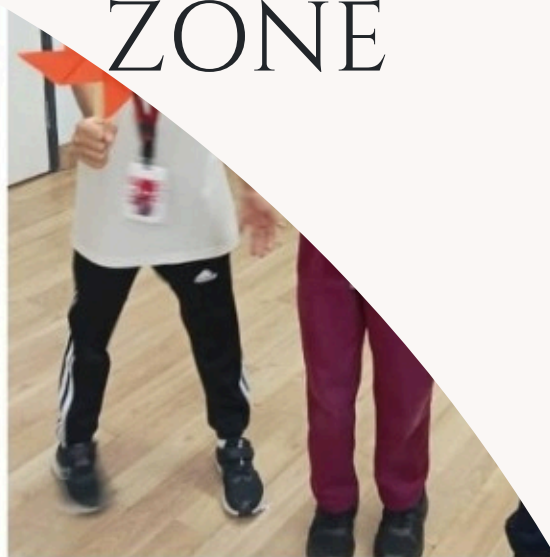

Standard 2: Our young experimenters had fun with shadow play and learned how shadows formed! They also crafted windmills and dove into a filtration experiment to see how mixtures get separated. 🌦️⚡

Standard 3: Junior chemists in Standard 3 explored water displacement and tested different objects to see what floats and what sinks. They also got a little taste of chemistry with acidity and alkalinity tests using litmus paper, plus a dive into density to see what floats and what sinks. 🌈🔬

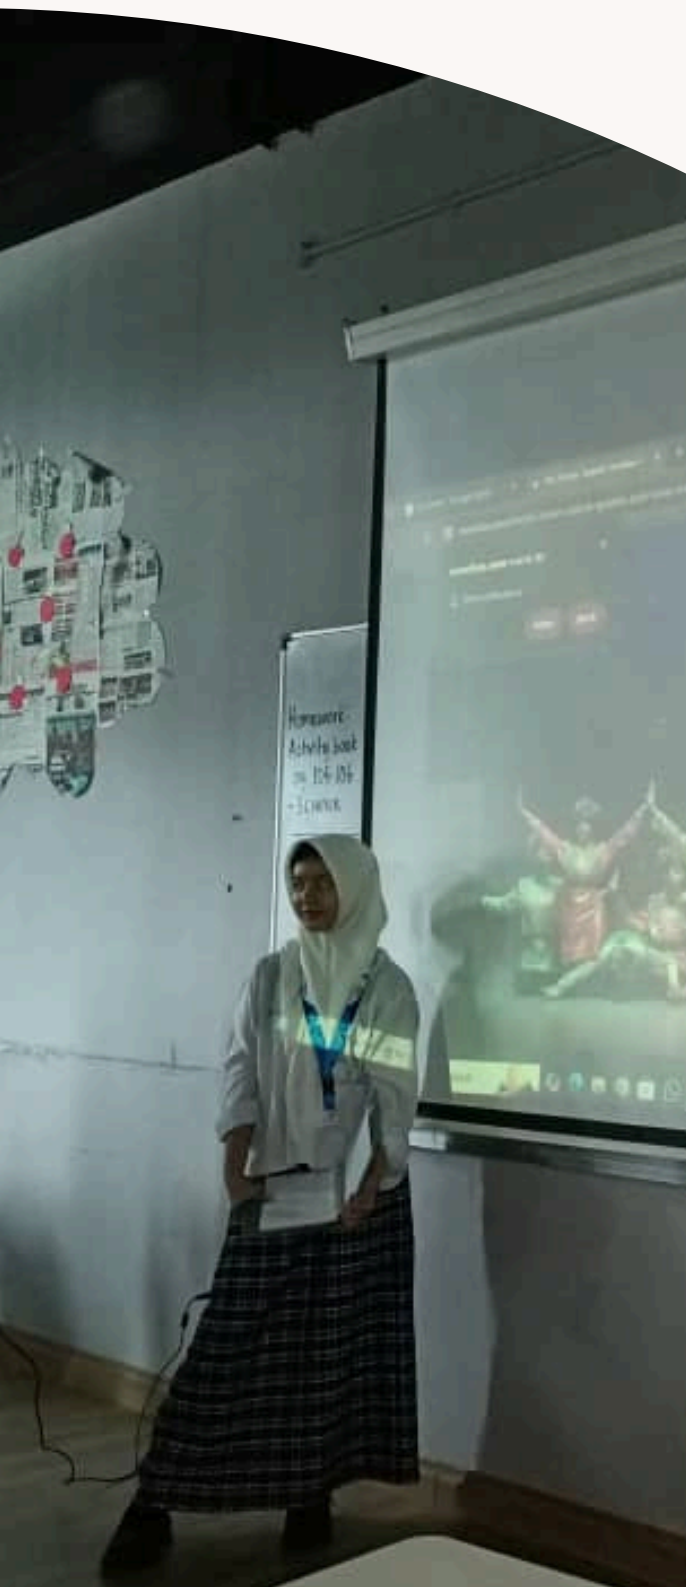

SEKOLAH SRI UCSI SPRINGHILL

PRIMARY LEARNING ZONE

SECONDARY LEARNING ZONE

MEMPERKUKUHKAN KEMAHIRAN BAHASA

Seperti yang diketahui umum, subjek bahasa Melayu merupakan subjek asas yang wajib lulus bagi semua murid di peringkat SPM malah subjek teras untuk semua murid.

Bagi menarik minat murid, guru menggabungkan aktiviti interaktif, kolaberatif dan elemen multimedia untuk memastikan murid terlibat dalam pembelajaran. Di dalam kelas, guru akan menekankan teknik menjawab soalan dan cara untuk mendapatkan markah yang maksimum bagi setiap soalan. Latihan seperti karangan adalah penting bagi memastikan murid mahir dan secara tidak langsung memantapkan lagi penguasaan bahasa Melayu mereka. Aktiviti seperti pembentangan serta kolabetif di antara murid juga memainkan peranan penting untuk meningkatkan Kemahiran bertutur dan secara tidak langsung bagi meningkatkan daya keberanian untuk bercakap di hadapan kelas. Aktiviti seperti berdebat, perbincangan dan berlakon antara murid juga adalah aktiviti yang saya praktikkan di dalam kelas bagi menambah keseronokan di dalam kelas bagi memastikan pembelajaran dua hala sentiasa berlaku di dalam kelas.

WHY SPRINGHILL SWIMMING ACADEMY?

- Experienced coach (with Life Saving Certification by LSSM and ARM)
- Regular pool maintenance
- Quiet and safe environment

LEARN TO SWIM WITH US

- It is an important life skill
- Build strength and stamina
- Release stress and tension
- Reduce joint/back pain

MEMBERSHIP

(casual swimming)

6 months for
RM600

12 months for
RM1,000

4 LESSONS / MONTH

(with coach)

5 to 12 years old
RM120

13 years old and above
RM140

- Affiliate member of Persatuan Akuatik Negeri Sembilan (PANS).
- Learn competitive swimming and become a school/state representative in national competitions.
