SPM Examinations Has Begun!

Good luck to all students taking the SPM examinations! Stay focused, manage your time wisely, and do your best. Remember to take breaks, stay calm, and trust in your preparation. You've got this! May you all emerge victorious in the SPM examinations and take the next step towards a bright future.

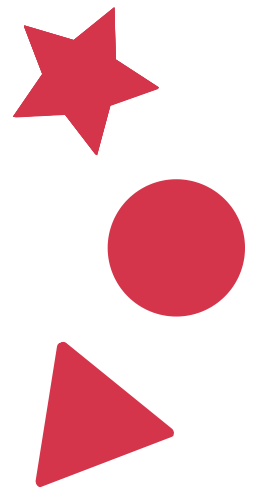

End Year Exam is Over & The Result!

Finally end year exam week is over, we've been doing the exam for 2 weeks straight with full of preparation and most of the students pass the exam with excellent grade. Congrats! Exam result is given out during the Report Card Day.

Math Magician's Corner: Nurturing Number Crunchers!

Written by : Teacher Hayana

Hello, my name is Nazdatul Hayana binti Md Ali. I am teaching Mathematics, Geography, Moral and Art. Actually, from a young age, my dream has always been to become a teacher, driven by an unwavering passion for education and a profound desire to inspire and empower others.

May your
classrooms be
filled with the
magic of
mathematical
discovery!

The idea of shaping young minds, fostering a love for learning, and being a positive influence in the lives of students has always fueled my aspirations.

The Power of Positive Reinforcement in the Classroom!

I envision a classroom where creativity and curiosity are encouraged, where students feel supported and motivated to reach their full potential. The prospect of imparting knowledge, instilling values, and making a lasting impact on the lives of those I teach fills me with a sense of purpose and fulfillment. With dedication and a commitment to lifelong learning,

I aspire to create a nurturing and stimulating educational environment that not only equips students with academic knowledge but also cultivates critical thinking skills and a lifelong love for learning. Becoming a teacher is not just a career choice for me; it is a calling that aligns with my deepest convictions and aspirations to contribute positively to the future generation.

TADIKA SRI UCSI LEARNING

Christmas is celebrated on December 25th every year.

To let students understand the holiday of Christmas, UCSI also organized some activities for students to participate. Kindergarten students participated in making Santa Claus masks.

The students are very happy.

CHRISTMAS CELEBRATION

2. 

On Christmas Day, everyone opens the presents under the Christmas tree together, which is usually the most exciting moment.

For relatives and friends who cannot get together, handwritten Christmas cards will be sent to express care and blessings.

PRIMARY LEARNING ACTIVITIES

MATHEMATICS

Teaching math in standard 4 isn't just about numbers; it's about fostering logical thinking and problem-solving. My goal as a primary school math teacher is to create a supportive learning environment where students develop a positive attitude towards math. I use interactive methods like games, real-life examples, and visual aids to make concepts relatable. Beyond arithmetic, I focus on critical thinking and mathematical reasoning to prepare students for success in their academic journey and beyond. Math isn't just a subject; it's about empowering young minds with confidence and analytical skills.

MORAL EDUCATION

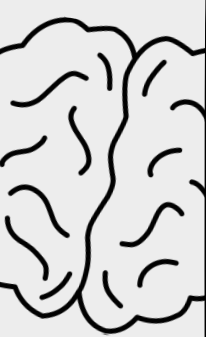

Teaching morality is about nurturing empathy, compassion, and a commitment to positive contributions to society. Together, we shape responsible individuals who understand the impact of their choices on creating a just and compassionate community. The goal is to foster thoughtful discussions and ethical understanding in the classroom. Through exploring values and ethical dilemmas, we aim to instill social responsibility and integrity in students.

BOOM BOOM BANG ACTIVITIES

As we dive to the end of school year, we are thrilled to update you on our latest activities of Boom Boom Bang. Get ready to embrace the great outdoors as we embark on a thrilling day of natural resource scavenger hunts, egg parachute, STEM Talentshow, and many more team-building activities. Let your creativity soar at our fashion show where we'll explore various artistic mediums and techniques. Whether you're a seasoned artist or just discovering your creative side, this activity promises to be a blast! Join us for a high-energy fitness extravaganza featuring a variety of workouts, from dance-based cardio to strength training circuits. Get ready to sweat, smile, and feel the burn!

We're excited to shine the spotlight on some of our outstanding members who have been making waves in the Boom Boom Bang event:

- Nur Raisha Qistina: Raisha's infectious enthusiasm and positive energy light up every activity she attends. Whether she's building a mini terrarium or leading a dance session, Samantha's passion for adventure is truly inspiring!
- Soo Kean Hong: Soo's dedication to fitness and wellness serves as a source of motivation for us all. His commitment to leading an active lifestyle is contagious.

Thank you for being a part of the Boom Boom Bang event. We can't wait to see you at our next event!
