## MESSAGE FROM THE PRINCIPAL

### HIGHLIGHTS IN THIS ISSUE

- **Message from the Principal**
- **An Honourable Visit**
- **Play-Based Learning @ Early Years Centre**
- **Earth Hour 2021**

Dear Sri UCSI Springhill Community,

As announced by the Minister of Education, Yang Berhormat Senator Datuk Dr Mohd Radzi bin Md Jidin, the Primary school students have returned to classes in two groups. Standard One and Two students were the first groups to return to school on 1 March, while Standard Three resumed their physical classes on 8 March. Our Secondary school students will return to physical classes on 14 April after their term break (5 - 13 April). Therefore, online learning for secondary school will only be until 2 April.

To ensure the students' safety, we assign our staff to scan their temperature at the foyer. Additionally, we also usher the students to the school's cafeteria (*waiting area*) before moving them to the respective classrooms in an orderly manner with physical distancing measures. Students must come to school with a new disposable face mask every morning, and they need to wear the face mask at all times (except when eating). We also advise the students to have spare face masks in their zip lock bag.

To ensure the smooth flow of students arriving and exiting the school, all parents and drivers are requested to be prompt. We also restrict the parents and guardians from entering the school building without any prior appointment. Therefore, we advise them to leave immediately after the drop-off and pick up to observe physical distancing and to avoid congestion.

Please be informed that we are adhering to the Standard Operating Procedures (SOPs) provided by the Ministry of Education (MOE), and we endeavour to ensure all students are safe while they enjoy their time at Sri UCSI Springhill Campus.

### An Honourable Visit

We were graced by the presence of Kementerian Pendidikan Malaysia and Jabatan Pendidikan Negeri Sembilan. Pn. Aniza Binti Kamarulzaman, the Deputy Director of Private Education Division, Ministry of Education and her team came to visit the campus with the purpose of a quality check – all preparations are in place to welcome our students back to campus starting 1<sup>st</sup> March 2021.

We are proud and glad to announce that Sekolah Sri UCSI Springhill Campus has fulfilled all the health and safety requirements as well as adhered to SOPs provided by the Ministry of Health and Ministry of Education.

With learning being at the heart of everything we do, we strive to provide a safe and healthy environment to all our students and staff.

## Play-Based Learning at Early Years Centre

To enhance the child's gross motor skills, we made them play indoor game table bowling with paper cups and plastics cups. Through this game, it helps them to recognise colours and perform backward counting (3 to 1) while arranging the cups.

## Sensory Play (Touch and Feel) – Early Years Centre

Humans have five senses, and we use our hands or skin to touch and feel everything. Children can touch and feel every texture, but can they describe it with words? This sensory play allows them to discover and describe textures using appropriate terms such as bumpy, sticky, rough and smooth.

## Learning from The Primary School

Our Standard Two students learnt to partition the numbers according to their place value and digit value and present their work in the “partitioning flowers” and “partitioning caterpillar”. The students are able to emphasise the method of writing the place value and digit value correctly. They also understand that the digit value 0 is not necessarily written when partitioning the number to digit value.

## Virtual CCA Primary

### AKTIVITI CCA: PANTUN DAN SAJAK

Kokurikulum yang julung kali diadakan bagi sesi persekolahan 2021 Sekolah Sri UCSI, dimulakan dengan aktiviti berpantun dan bersajak. Antara pengisian yang dijalankan ialah pengenalan terhadap pantun dan sajak. Murid-murid didedahkan dengan jenis-jenis pantun, cara menyebut pantun mengikut intonasi serta mendeklamasikan sajak. Penglibatan semua murid yang mengikuti aktiviti kali ini amat memberangsangkan meskipun ia dijalankan secara PdPR. Murid-murid turut disajikan dengan alunan muzik gambus yang juga merupakan salah satu daripada muzik tradisional yang amat terkenal di Malaysia khususnya dalam kalangan masyarakat Melayu.

## Virtual CCA Primary

### Activity: Chinese New Year

Far apart but together in our heart! Despite this COVID-19 pandemic, our primary students celebrated the Chinese New Year 2021 virtually. The students get to know the history of Chinese New Year through a video and sang a typical Chinese New Year song together. We also did a simple art and craft - Dancing Paper Dragon. It is a beautiful and exciting moment when different races can know more about the cultures among us.

## Physical Education – Secondary

**Picture 1** - Picture of students listening to the instructions before the exercise begin. This is very important so that they will do the exercises correctly and avoid injury.

**Picture 2** - Picture of students doing the plank exercise. The plank exercise is good as it strengthens our spine, rhomboids, trapezius and abdominal muscles. The plank exercise will naturally result in a strong posture. Good posture means we are keeping our bones aligned.

**Picture 3** - Picture of students after their biceps exercise. This exercise improves our bone density and helps us achieve aerobic benefits. At the same time, this exercise also strengthens our muscles.
