## MESSAGE FROM THE PRINCIPAL

### HIGHLIGHTS IN THIS ISSUE

- **Message from the Principal**
- **Eco-Schools Award Ceremony**
- **Global Schools Program**

Dear Sri UCSI Springhill Community,

Recently, we are pleased to receive the invitation to the grand finale of the Celebrating 10 Years of Eco-Schools - The Eco-Schools Award Ceremony. Sekolah Sri UCSI Springhill has been awarded the Bronze Award for our achievements in addressing environmental issues based on the Seven Steps Methodology in compliance with its associated criteria. Congratulations to Mr. Jonathan Anthony in leading this process with the Eco-Schools Committee. We are proud to be part of Eco-Schools, the largest global sustainable schools programme – it starts in the classroom and expands to the community by engaging the next generation in action-based learning. In the past decade, the programme has touched thousands of students and inspired them to become more environmentally conscious.

Sekolah Sri UCSI Springhill is now a member of the Global Schools Program. Global Schools Program encourage primary and secondary school students to actively learn, engage and take action on Sustainable Development Goals (SDGs). This programme aims to transform learning environments and make this school a hub for SDGs education and leadership while empowering students to prioritize sustainable development in their personal and professional lifestyles. The 17 SDGs came into effect in January 2016 consisting of a shared global framework. This framework aims to eradicate extreme poverty, inequality, and injustice while addressing climate change, environmental protection, as well as encourage good governance, peace, and security by 2030. As learning institutions, schools will play a critical role to address these pressing global challenges and accomplish these goals. As educators, we have a responsibility to equip our students with the knowledge to understand the global challenges facing the world and the skills to overcome them. We are proud to join this global community of schools and educators and look forward to become a leader in this international education movement in Malaysia.

Sekolah Sri UCSI Springhill will be closed for the Deepavali break from 3<sup>rd</sup> – 5<sup>th</sup> November. All classes will resume on Monday, 8<sup>th</sup> November.

Warm wishes on Diwali to you and your family. May this festival of lights brighten each and every day of your life with happiness, glory, and prosperity.

### Global Schools Program

Sekolah Sri UCSI Springhill is now a member of the Global Schools Program which encourages primary and secondary school students to participate in Sustainable Development Goals (SDGs). The programme aims to create a learning environment and subsequently transform the school into a hub for SDG education and leadership while encouraging students to adopt sustainable development into their professional and personal lifestyles.

The SDGs were developed by the United Nations Department of Economic and Social Welfare, demanding for action beyond 'business as usual.' Achieving these goals will involve critical stakeholders such as government agencies, civil society, businesses, academia, and youth to collaborate and participate extensively.

The 17 Sustainable Development Goals (SDGs) came into effect in January 2016 consisting of a shared global framework. This framework aims to eradicate extreme poverty, inequality, and injustice while addressing climate change, environmental protection, as well as encourage good governance, peace, and security by 2030.

Poverty and inequality, weak governance, conflict and instability, lack of infrastructure, and natural resources depletion would result in irreversible long-term problems that often undermines growth and prosperity efforts within any social community.

As a learning institution, Sekolah Sri UCSI Springhill will play an important role to address these global challenges and accomplish these goals. It will join hands with other schools to carry out the responsibility of nurturing and shaping positive values while developing leadership skills for students towards building a sustainable future. These schools could leverage through their unique positions within the society to transform their environment into hubs for community leadership and localisation of Sustainable Development Goals.

Sekolah Sri UCSI Springhill is proud to join this global community of schools and educators. It looks forward towards contributing to the international education movement in Malaysia.

## MESSAGE FROM THE PRINCIPAL

### 蘆骨春泉鎮斯里UCSI 首個獲認可微軟示範學校

(芙蓉29日讯) 斯里UCSI学校芦骨春泉镇校区, 成为大马首个获得微软认可“示范学校”的私立学校。

微软指出, 该校区获选的原因, 是因为该校在课程和评估工具上的创新策略, 并以学生为中心、著重未来技能(如: 批判性思维、协作和创造力)发展方向, 皆表现卓越。

迄今, 全球90多个参与微软数字化学习转型的国家中, 仅约500所学校获得此精英校园认可。

春泉镇斯里UCSI学校首席营运官兼校长黄健通指出, 近一年来, 该校一直致力于全校的大规模转型, 利用微软教育转型框架来推动学习、创新和持续改进的校园文化。

“转变不仅仅是科技上适应, 还涉及教师、学生和家長思维方式

的转变。如今, 我们已成功证明, 即便在这充满挑战的时代, 仍可通过使用课堂上的创新科技, 达到成功及支持永续教育的目标。”

他们相信科技在塑造学习者和赋予未来所需技能上, 扮演着重要角色, 而科技是教学的核心, 他们已经见证到其带来的广泛好处, 并有效帮助孩子发展学习兴趣。

“数字学习转型让我校更适合各种不同类型的学习者, 让学习过程更趋个性化。”

#### 安东尼: 领导者致力全校改革

微软全球教育副主席安东尼萨奇托说, 这些教育工作者和领导者的杰出之处在于他们致力于全校的变革, 以推动学习、创新和持续改进的文化, 而学校的努力体现, 也令学生在学习成绩上的提高, 以

斯里UCSI学校春泉镇校区, 成为大马首个获得微软认可为“示范学校”的私立学校。(校方提供)

及对未来技能的重视上。

此外, 他们也认可UCSI学校在教育转型上的贡献, 让该校在疫情危机期间, 有效地在管理远程和混合学习上, 成功完成过度期。

“作为微软示范学校, 春泉镇斯里UCSI学校将肩负着帮助我国其他学校和教师, 更有效管理远程和混合学习的过渡, 并分享教育科技使用的专业知识。”

黄健通说, 他们也期待与社区, 甚至全球其他学校分享经验, 继续寻找创新方法来扩大学生在课堂内外取得成功, 以及所需的教育工具。

September 30 was historic milestone for us to be featured in the Sin Chew Daily newspaper for being Malaysia's FIRST Microsoft Showcase Private National School!

## Early Year Centre

Welcome to a new term! Our first week was a great success during Term 3 at EYC. Despite the limitations of virtual learning due to the pandemic, EYC teachers have been introducing new creative methods to ensure a fun learning experience.

### English

At EYC, English is a lesson where students engage in fun learning experiences to develop their communication and cognitive skills. Students play with games such as “These Lovely Alphabet” to learn letter formation and sound.

*K for Kangaroo*

### Mathematics

Math games are a fun way to help children understand Commutative Law of Addition. EYC uses ice-cream cones pictures to teach Number Bonds for numbers between 1 to 5 by using different coloured scoops. Students need to match the scoops the right ice-cream cone. Let us see who has the tallest ice-cream tower?

*“Yeah! I’ve made some tall ice cream tower”, said Jin Yang. Yummy... Yummy...*

**SEKOLAH SRI UCSI**  
QUALITY EDUCATION WITH GENUINE CARE

Bandar Springhill, Port Dickson

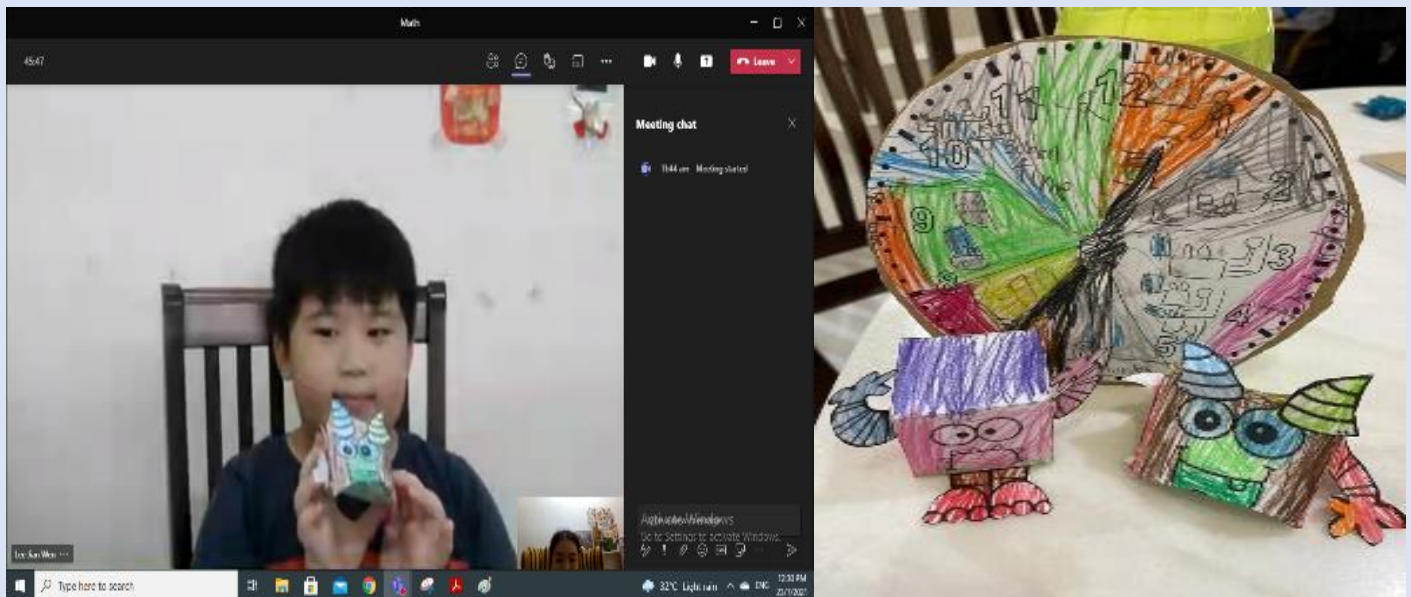

## Early Year Centre

Students practice sequencing numbers up to 5 by matching each numeral to the picture that represents the number and arrange each ice cream picture in ascending order.

*Jarren began to learn sorting activities using math.*

Children get excited with Fun Elementary Craftivity while learning 3D geometric shapes during art lessons. Students create 3D shaped monsters that are fun and easy under the guidance of EYC teachers.

*Jian Wen did an amazing job with his 3D shape monsters! Awesome job!*

## Early Year Centre

### Expressive Arts

Students learned about Russian painter and art theorist, Wassily Kandinsky, through the art of blending primary colours into secondary colours. Jian Wen made a magnificent replica of Kandinsky's art.

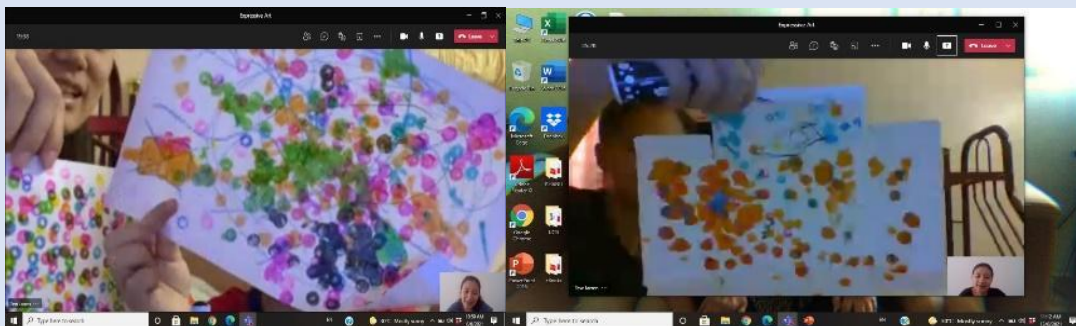

*Jian Wen did a marvellous job in blending colours! Bravo!*

This week's English theme allowed EYC students to learn to use white crayon to draw and paint a car that pops out! They discovered how water separates from oil during Expressive Art lessons.

*"Look! I can separate water and oil," said Jian Wen.*

Playschool students learned about colour with polka dots during Expressive Art lesson.

*That's such a magnificent polka dot painted by Jarren! Bravo!*

## Early Year Centre

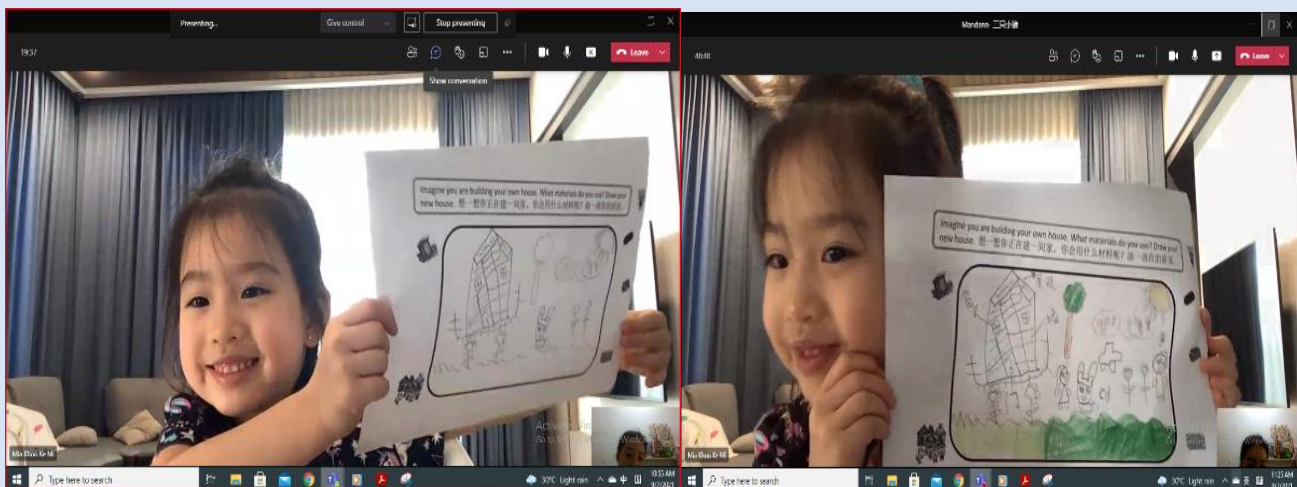

### Mandarin

Foundation students learned to converse in Mandarin during the “All About My Class” session with Early Years Centre (EYC) teachers. Here we have Jian Wen with his drawings of his school and friends.

*“Look! This is my school and my friends”, said Jian Wen.*

EYC teachers conduct a storytelling session with the tale of “三只小猪 the three little pigs” to encourage expressive reading and listening skills development. Students built dream houses by using creative materials from their own imagination.

*Mia’s face was full of excitement as she showcased her own dream house.*

[www.sriucsi.edu.my/sh/](http://www.sriucsi.edu.my/sh/)

## Early Year Centre

Students also explored a topic on “在海边”, at the beach whereby teacher Mei Shin taught Jian Wen to create a kite.

*Jian Wen enjoyed making his own kite.*

Jian Wen enjoyed himself by making movable paper swing “秋千” during Mandarin class.

*Jian Wen made a movable paper swing by himself.*

### Eco Schools Award Ceremony - Speech By Mr. Jonathan Anthony

*To the honourable CEO of WWF Malaysia, Ms Sophia Lim, Mr Pramod Sharma, Senior Director of Education, Ms Jessie Chew, the Programme Manager, Ms Mathi and to the organisers of this event, Mr Wong Kin Tung, our Principal of Sekolah Sri UCSI, Springhill, all Principals, and coordinators of Eco School Malaysia and to dear fellow students. I am Jonathan Anthony, Eco School Coordinator for Sekolah Sri UCSI Springhill. Today is a day to be thankful and inspired.*

*September 2020 marks the Journey of Sekolah Sri UCSI Springhill, into the WWF Eco School Programme. A programme, so necessary for our schools today since students are an integral part of the establishment, and that these young people will be our leaders of tomorrow, so does the future of nature lie in the responsibility of their hands. Nature co-exists with men, and the latter cannot live without the former. Thus, it is our duty as educators to instil love and respect as well as the knowledge of sustaining and reaping the fruits of nature, a science in its own right, to these young ones.*

*The force of nature is so widely experienced by us especially in this pandemic; we have seen the closure of schools, a noble institution to protect the welfare of our students. Nevertheless, through the good use of technology, teaching and learning did not cease. We here at Sekolah Sri UCSI, Malaysia's first Microsoft showcase Private National school, employ its facilities to foster environmental awareness through our screens resulting in a great number of online Eco themed activities for the duration of the lockdown. As part of the seven steps to the bronze award, surveys and some meetings were conducted online.*

*We did not allow complacency and when schools were reopened temporarily, we grabbed the opportunity to further implement the seven steps needed for those things physical, for instance the planting of an herb and flower garden, the preparation of the Eco school notice board and signages to conserve the utilities in school and many more Eco school activities. All of these were achieved by our students under the auspices of an excellent Eco team comprising both teachers and students. In times where everything seemed bleak and impossible, we have made it possible for this achievement.*

*No man is an island. It is the teamwork between teachers and students and dedication to our ideals that rendered to us this award. Thus, we are looking forward to collaborate with other Eco schools in Malaysia to attain a sustainable environment, particularly at Negeri Sembilan for the common good of the present generation and the generations to come. We would love to thank our Principal Mr. Wong Kin Tung and the Senior Assistant Ms. Paramaswari for their vision and support. We also thank all parents who have walked the extra mile to render their support for the accomplishment of this award. Lastly, to the WWF Eco School team a big thank you for giving us this Bronze award.*

## National COVID-19 Immunisation Programme for Adolescents

Our students have completed their second dose of Covid-19 vaccine. Sekolah Sri UCSI Springhill Campus is among the first schools in Port Dickson District to complete the National COVID-19 Immunisation Programme for Adolescents (PICK Adolescents) for our students aged 12-17 years. We would like to thank parents, students and staff for ensuring a successful vaccination programme.

Sekolah Sri UCSI Springhill is a registered school under the WE Schools Programme. WE Schools is an innovative series of experiential service-learning programmes that empowers students with the skills, knowledge and motivation to bring positive change in themselves and the world. Through experiential service-learning programmes, our students can explore and take action on critical issues impacting our communities and the world. Along the way, they will gain social and emotional learning skills such as resilience, empathy and problem-solving.

We can all make a positive impact – whether it's volunteering, fundraising or raising awareness around causes that matter.
