

The Eagles: Issue 88

Our little learners turned into mini farmers today!

Using a rubber glove filled with water, the children created their own “cow” and squeezed it to see how milk comes out — just like real milking!

Lots of laughter, curiosity and excitement filled the class as they explored, took turns and discovered cause and effect through hands-on learning 🧪 ✨

Learning is always best when children can touch, try and experience it themselves ❤️

Classroom Newsletter: Bahasa Melayu Quiz Session

Date: Wednesday, 28 January 2026

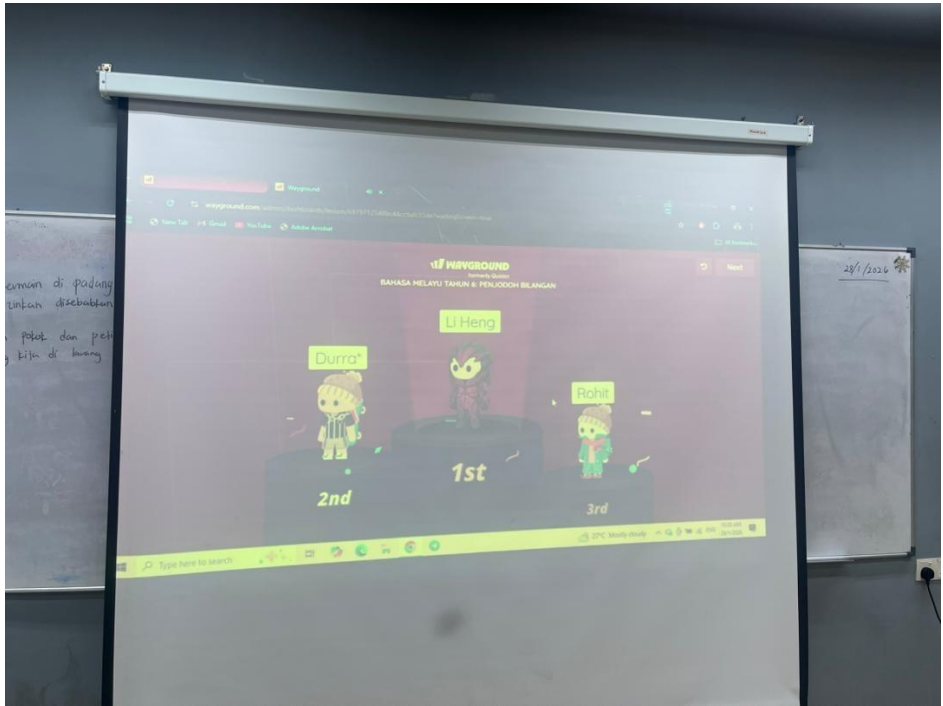

Class: Primary – Standard 6

Subject: Bahasa Melayu

Topic: Quiz (Penjodoh Bilangan & Kata Adjektif)

On Wednesday, 28 January 2026, Standard 6 pupils participated in an interactive Bahasa Melayu quiz session focusing on Penjodoh Bilangan and Kata Adjektif. The session was conducted using digital learning tools to enhance students' engagement and independent thinking skills.

The pupils completed the quiz individually using their own devices through the Quizzes Application and Kahoot Application. As this was a real assessment, pupils were required to work independently without discussing answers with friends or seeking help from the teacher. This approach aimed to assess each pupil's true understanding of the topic.

The quiz marks have been recorded and reported for reference by the subject teacher and parents. Overall, the activity encouraged responsibility, focus, and confidence while integrating technology into classroom learning.

📱 Materials Used: • Digital Devices • Quizzes Application • Kahoot Application

This session successfully supported independent learning while making the assessment process engaging and meaningful for the pupils.

History: A Class to Experience, not Memorised

Hi, I am MS. Mayure Muniandy, a passionate History teacher at Sekolah Sri UCSI Springhill who believes that History should be experienced, not memorised. In my classroom, the past comes alive through hands-on projects where students build models, design timelines, and role-play historical figures to understand how societies functioned. I encourage student-led presentations that turn learners into confident “young historians” who share ideas through slides, posters, and storytelling while developing higher-order thinking and communication skills. Technology also plays an important role in my lessons; I use interactive quizzes, gamified platforms, videos, and even AI-generated historical visuals to create an engaging and modern learning environment.

At the same time, I am carefully preparing my Form 4 students for their SPM next year by introducing them early to SPM-format questions, teaching structured answering techniques, conducting timed practices, and guiding them in source analysis and essay writing. Through collaborative learning and focused revision strategies, students build both content mastery and exam confidence. These innovative approaches have transformed my history lessons into active, student-centred experiences where students think critically, participate enthusiastically, and develop a deeper appreciation for how the past shapes their present and future.

Cross-country Run

29/01/2026

SEKOLAH SRI UCSI
SPRINGHILL, PORT DICKSON

A DAY OF ENDURANCE

On 29 January 2026, Sekolah Sri UCSI Springhill Campus, Port Dickson successfully held its annual Cross-Country Run. The event aimed to promote physical fitness, resilience, and teamwork among students. Students gathered early in the morning, filled with enthusiasm and determination. The atmosphere was lively as participants prepared themselves for the run.

Age-specific programmes

Designed for growth, confidence and school readiness

Our age-appropriate programmes gradually build independence, confidence and important foundational skills to ensure a smooth transition to primary school.

Age groups:

- Nursery (3–4 years)
- Kinder (5 years)
- Prep (6 years)

Nursery (3–4 years)

Highlights

-  Project-based learning
-  Reggio Emilia-inspired environments
-  Regular sensory play
-  Rotational station exploration

Kinder (5 years)

Highlights

-  Gross motor activities
-  STEM lab
(integrated learning of maths and science)
-  Music and movement
-  Rotational station exploration

Prep (6 years)

Highlights

-  MoneySmart
(financial literacy)
-  Brave speakers
(public speaking and confidence building)
-  Music and movement
-  Rotational station exploration

The Reggio Emilia approach

Enrichment programmes such as **swimming, coding & robotics, financial literacy, STEAM** and more!
