**A STORY OF PASSION IN ENGLISH LANGUAGE
EDUCATION**

Empowering Minds with English

**WRITTEN BY : TEACHER
GOWRY**

Hello everyone! I'm an English language teacher, Gowrikrubahary Gunnasegaran proudly says, with a passion and seven years of experience in various educational environments. I have created and taught relevant English lessons focusing on building fluency.

This is my 4th year at the Sri UCSI Springhill campus. It's a great pleasure to be given the task of teaching the English language.

"The dream begins with a teacher who believes in you, who tugs and pushes and leads you to the next plateau, sometimes poking you with a sharp stick called 'truth.'" –Dan Rather

I'm so proud to be part of the English Department. I've learned more teaching strategies, and it's my responsibility to develop 5C skills in students from an early age, which will help make them ready for the real world. Those 5C skills are critical thinking, communication, collaboration, creativity, and character.

Succinctly, to create active and fun learning, I will always conduct group activities or project-based learning. My students take satisfaction in the work given.

The students here are building character as they immerse themselves in their studies despite their challenges, which reflects on their parents, who have set a very high standard for their children in terms of academics and molding their children to be prodigious students and leaders. This helps to build character, such as a sense of confidence.

PAST EVENTS

CHILDREN'S DAY

We celebrated Children's Day with joy and laughter. Enthusiastic students engaged in various activities, fostering creativity and camaraderie. The vibrant atmosphere echoed with youthful energy as children reveled in games, performances, and the spirit of togetherness. It was a memorable day, cherishing the innocence and happiness of our young scholars.

DEEPAVALI WITH EYC

EYC students brightened the classroom with vibrant Deepavali costumes, celebrating the festival together. Adorned in traditional attire, they shared joy and cultural pride, fostering a sense of unity and understanding among classmates. The colorful celebration added a festive touch to their learning environment, creating cherished memories.

WORLD SOIL DAY

World Soil Day was celebrated with enthusiasm, engaging in a vibrant soil painting competition. With creativity on display, they translated their appreciation for the Earth into colorful artworks. This initiative not only celebrated soil's significance but also fostered environmental awareness and artistic expression among the young participants.

Upcoming Event!

- 1/12 - SWIMMING GALA
- 8/12 - X'MAS & DEEPAVALI CELEBRATION
- 11/12 - CCA DAY

MAKING PEACOCK AND MUSHROOM HOUSE !

Our EYC students had so much fun making the peacock and mushroom house!

The best way to get young children learning while doing art is to let them experiment with art materials and tools freely.

Art has many benefits for children: It encourages self-expression, improves motor skills, develops patience and problem-solving abilities, and increases concentration.

It's amazing seeing what their creative minds can lead them to!

Let's keep making more fun arts together.

PRIMARY LEARNING

MAGIC OF ARTICLES!

Articles are fascinating little words in the English language! They might seem small, but they wield significant power in shaping the meaning of a sentence.

Understanding when and how to use these articles can be a game-changer! Our students are honing their skills to ensure sentences are clear and concise.

They're discovering how articles modify the meaning of nouns and are using them adeptly to create well-structured sentences.

Secondary Learning

SET in Math

In this math class, students learned about sets, which are like groups of things with something in common. They figured out how to show these groups using different methods. This helped them see the connections between things. They learned that a set is just a bunch of different things grouped together.

To check if they understood everything, the students had to answer questions on the whiteboard. This made the learning more interactive and let them help each other. It also gave them a chance to explain their ideas and get better at talking about math.

UCSI SWIMMING ACADEMY

BE A SWIMMING MASTER

In UCSI Springhill Swimming Academy, we are passionate to teach swimming with qualified coach, Olympic size swimming pool, facilities as well as dedicated customer service team.

SWIMMING LESSON ::

- Child and Adult Swimming Lessons
- Four (4) lessons per month
- Open on Weekdays and Weekends
