TEACHER'S FOCUS - MISS PRIYA

MSSN - SWIMMING

TALK BY DR VINOD SHARMA

MISS PRIYA

In learning you will teach, and in teaching you will learn

For a very long time, I have wanted to be a teacher. Aside from that, I had an immense passion in education. Therefore, I pursued a master's degree in education after I graduated degree from university. I also have been an individual tutor since 2021.

Now, here I am, as my students' RBT teacher. I must admit, when I first started teaching this subject, it was unfamiliar territory for me. But that didn't discourage me; instead, it fueled my determination to learn and grow alongside all my students.

Throughout my lessons with the students, I have witnessed something truly remarkable – their genuine interest in RBT projects, especially those involving problem-solving. It amazes me how they effortlessly embrace challenges and apply their natural abilities and skills to create innovative solutions.

When I get to see students developing a new ability or completing a project, it is tremendously motivating for me as a teacher. As their teacher, nothing brings me greater joy than witnessing the growth and potential within each one of them.

As we continue this journey together, I want my students to know that my passion for teaching and nurturing their potential burns brighter than ever. I am here not only to impart knowledge but also to inspire and empower you to become the best versions of yourselves. Together, let's explore, learn, and create a brighter future for yourselves and our community.

Teacher Priya

FROM THE FRONT PAGE

MSSNS - SWIMMING COMPETITION

Seven swimmers from SEKOLAH SRI UCSI shine at the MSSNS 2023. The team's remarkable performances in FREESTYLE and BREASTSTROKE earned them accolades. Their dedication and hard work pay off, setting high hopes for the upcoming Swimming tournament. Congratulations to the seven stars for their outstanding achievements, and we look forward to their continued progress in the pool!

BRAIN TRAINING BY DR VINOD

Renowned memory trainer Dr. Vinod Sharma, CEO and Co-Founder of Brainywood Vedic Brain Solutions, enlightened students and teachers at our campus with mind-boggling techniques to enhance memory. His talk on innovative learning and brain science left a lasting impact, enabling better memorization of academic subjects and daily life situations. Gratitude to Dr. Sharma for sharing his invaluable insights.

MICROSOFT SHOWCASE SCHOOL VISIT

SJKT Mukundhan, in partnership with Microsoft Showcase School, hosted a dynamic event highlighting digital transformation in education. 'Microsoft Innovative Educator Experts' demonstrated cutting-edge applications, robotics, and interactive Minecraft projects, inspiring a culture of lifelong learning. The collaboration with like-minded educators empowered students with immersive, inclusive experiences, fostering innovation and achievement.

UPCOMING SCHOOL EVENT

SPORTS DAY

3 - 4 AUGUST

2 & 4 AUGUST

**MSSD 2023 ATHLETIC
COMPETITION**

**MERDEKA MONTH
LAUNCHING**

31 JULY

INDOOR PLAY - MONKEY BOX

Indoor play allows children to work on their strength, flexibility, fine motor skills, and gross motor skills. It helps them to develop as strong and healthy children. Children learn the "throwing skill" using the "Feed Me Monkey Box" with a monkey theme. They discover monkey's favorite food, movement, and kindness to animals, enhancing imagination, creativity, and socialization during indoor play.

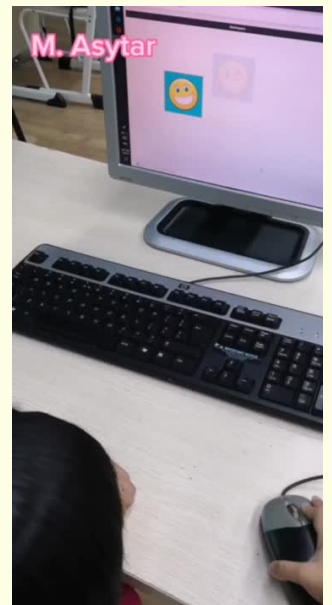

TADIKA SRI UCSI LEARNING ACTIVITIES

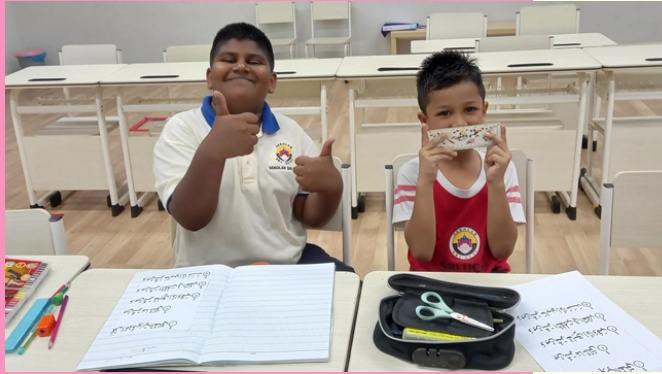

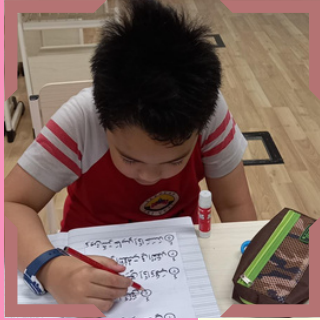

ICT - DRAG & DROP

ICT improves kindergarten learning, fostering communication and collaboration in all subjects. In this lesson students learned mouse usage: grip, button functions, and mouse movement techniques. Teacher demonstrated

Understanding the significance of computer mouse proficiency holds considerable importance for the development of fine motor skills in children.

SOLAT

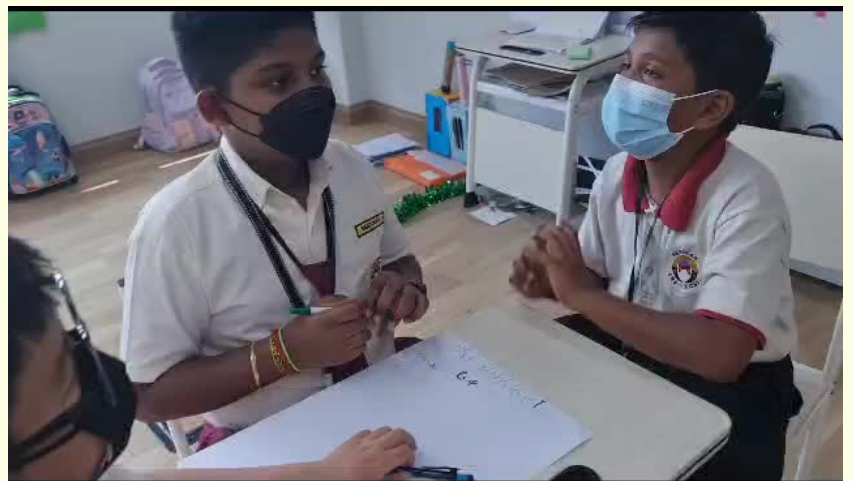

Pembelajaran Pendidikan Islam Tahun 2 dan Tahun 3 berkisarkan tajuk Solat. Murid-murid diberi pendedahan dan pemahaman dengan jumlah rakaat solat, waktu solat dan bacaan yang terdapat dalam setiap pergerakan solat lima waktu. Murid-murid turut diajar dengan cara-cara berwudhuk.

PRIMARY LEARNING ACTIVITIES

ALPHABET RACE

It's always a good idea to have a few fun activities up your sleeve as a brain break or a time filler for early finishers. Alphabet Race is a simple word game similar

to Build a Word or Scrabble, where players make new words by adding letters to a starting word and crossing out letters of the alphabet. The aim is to get rid of all the letters in the alphabet. Our standard four students participated well in this alphabet race.

PENGGUNAAN KATA

Pembelajaran Bahasa Melayu Tingkatan 5 lebih menekankan terhadap aspek golongan kata dan ini dirangkumkan menjadi topik penting bagi pengajaran yang memberi keutamaan dalam aspek sistem bahasa. Murid-murid didedahkan dengan penggunaan kata, penguasaan kosa kata serta aktiviti pengayaan yang berteraskan soalan peperiksaan Sijil Pelajaran Malaysia (SPM).

SECONDARY LEARNING ACTIVITIES

SCALE DRAWING IN MATH

Scale drawing allows us to represent real-world objects, places, or structures accurately on paper or a computer screen. Form 3 students focused on investigating the correlation between real-world measurements and diverse scales of object drawings. Students enjoyed learning reciprocal scale drawing tasks. A quiz was done at the end of the lesson to test students' understanding.

5. Determine the scale of the following in the form of 1 : n.

Object	Scale Drawing	Scale (1 : n)
		<input type="text"/> (Write the ratio. Example 1 : 5)
		<input type="text"/> (Write the ratio.)

UCSI EARLY YEARS CENTER

Holistic Preschool with Kide Science

International award-winning STEAM Science approach from Finland.

- Weekly music and movement classes, swimming, and computer lessons!
- Indoor classrooms and outdoor spaces to promote active learning

Early Years School Hours:

- Half Day (8.00am - 12.30pm)
- Full Day (8.00am - 4.00pm)

06 - 6536888
