MISS ALIA

EMBRACING EDUCATION AND DIVERSITY

Hello everyone, my name is Nur Alia Natasha. A fresh face who has been added to Sekolah Sri UCSI, Springhill as a teacher teaching Physics, Chemistry, Mathematics, and Science. Being a teacher is significant to me because, according to a phrase by Nelson Mandela, education is the most potent tool we have to change the world. Along with such a statement, I firmly think that education can help us all contribute to improving the world.

I recently returned from South Korea where I was doing an internship as a research assistant. From that point on, I understood that we must allow ourselves to go above and beyond to pursue knowledge and experience. By doing this, we can gain knowledge from struggle and practice. However, after spending a few months in South Korea, I truly miss Malaysia, our sovereign nation.collaboration skills among them.

In keeping with the Merdeka month theme, I would like to commend Malaysia for being such a wealthy nation. Our ability to coexist peacefully as a nation, despite having people of all races and ethnicities, is one of our assets. To that end, it would be wonderful if we could all take a moment during this Merdeka month to reflect on the many sacrifices made by our countrymen so that we may all go to bed at night feeling peaceful.

FROM THE FRONT PAGE

TANJUNG TUAN HIKE

On August 18, 2023, Sekolah Sri UCSI Springhill students and teachers engaged in a 3-hour hiking activity at Batu Putih, Port Dickson. The trek fostered nature exploration, memories, and well-being, aligning with the school's 5Cs education pillars. The event exemplified the school's commitment to holistic teaching and learning. It was truly a memorable day for everyone joining the hike.

MERDEKA ACTIVITY - KUIH CANVAS

Amid the Merdeka month, Sri UCSI Springhill students embarked on a flavorful journey, creating 'onde-onde' and shaping our cultural heritage into a giant Malaysia Madani logo. Crafting onde-onde taught us culinary skills, while logo-making sparked our boundless creativity. With every student and teacher enjoying these treats, we shared more than desserts – a reminder of our Malaysian unity. Kudos to all!

PHOTOGRAPHY COMPETITION

Nature's palette never fails to amaze us with its vibrant hues and breath-taking landscapes! Our students recently took part in exciting nature-themed photography and drawing contests. They captured the beauty of the natural world through their photos and drawings. The categories included landscapes, plants, and animals. After all the submissions, everyone got to vote for their favorite pictures by putting stickers on them. It was amazing to see how creative our students are and how much they love nature. Great job to all who participated!

**MALAYSIA DAY
CELEBRATION**

15 SEPT

Sing and Dance Time

Dance is an excellent way for children to develop many different physical skills. Pom Pom dance is a high-energy blend of jazz, hip-hop, and dance team or cheer techniques. The precise arm movements and formations in pom - pom dance enhance student's control, coordination, and body awareness. The students listened to the song and dance according to the actions using pom pom.

TADIKA SRI UCSI LEARNING ACTIVITIES

MERDEKA ARTS

National Day 2023 is just around the corner and that means it is time to get cracking on some Malaysia flag art and craft. While doing this activity the children learned about the meaning of a yellow crescent, the 14-point star on a blue field, and the alternating stripes of red and white. The arts focus around themes on independence and freedom which is 'Malaysia Madani'. They also learned a bit about responsibility as a Malaysian from this fun and creative activities.

Merdeka Project With Std 6

As August approaches, we're getting closer to celebrating our National Day. It's a source of pride for all Malaysians as we've lived harmoniously among diverse communities for 66 years. It's important to instill the significance of this historical day in students, fostering Merdeka spirit and patriotism. A suitable approach for their age is engaging them in patriotic arts and crafts, like making bookmarks with hibiscus paintings, promoting both understanding of freedom and artistic skills.

PRIMARY LEARNING ACTIVITIES

Morale Lesson - About Loving Family

In their morale class, students delve into the art of kindness within families. Sharing insights on compassionate gestures, they exchange ideas on fostering harmonious relationships. The lesson enriches them with a plethora of new Malay vocabulary, enhancing their ability to express affection and care within their familial bonds.

Business Documentations in Accounting Class

Business documents as sources of information. Each student is divided into four pairs. Each pair is required to give a presentation to the class on four types of source documents. This helps students grasp the significance of proper documentation in managing business accounts, ensuring accuracy, compliance, and informed decision-making. Understanding these benefits encourages responsible record-keeping practices in the business world.

SECONDARY LEARNING ACTIVITIES

Art Lesson - Embracing the Beauty of Malaysia Madani

Malaysia's Independence Day holds immense historical significance, symbolizing our heroes' struggle for freedom. Celebrating creatively, students from grades 1 to 3 beautifully depicted the 66th Independence Day through captivating artwork under the theme "Malaysia Madani". The activity, conducted throughout August, showcased their painting talents and patriotic spirit, assessing their ability to embody patriotism.

UCSI EARLY YEARS CENTER

Holistic Preschool with Kide Science

International award-winning STEAM Science approach from Finland.

- Weekly music and movement classes, swimming, and computer lessons!
- Indoor classrooms and outdoor spaces to promote active learning

Early Years School Hours:

- Half Day (8.00am - 12.30pm)
- Full Day (8.00am - 4.00pm)

06 - 6536888
